2. **Exhibit Q – Proof of Mailing of Notices to Board of County Commissioners and Conservation District:** Please submit proof that notice of the permit application was sent to the Board of County Commissioners and, if the mining operation is within the boundaries of a Conservation District, to the Board of Supervisors of the Conservation District, pursuant to Rule 1.6.2(1)(a)(ii).
3. **Exhibit R – Proof of Filing with County Clerk and Recorder:** Please submit an affidavit or receipt indicating the date on which the application was placed with the local County Clerk and Recorder for public review, pursuant to Rule 1.6.2(1)(c).
4. **Rule 1.6.2 (1)(b):** Please post a notice (sign) at the entrance to the mill site. The notice shall be a minimum size of eleven (11) inches wide by seventeen (17) inches high, with appropriate font size, to clearly identify the site as the location of a proposed mining/milling operation giving the name, address, and phone number of Union Milling Company, LLC, and stating that Union Milling Company, LLC has applied for a mining permit with the Colorado Mined Land Reclamation Board. Anyone wishing to comment on the application may view the application at the County Clerk's or Recorder's office and should send comments prior to the end of the public comment period to the Division of Reclamation, Mining and Safety, 1313 Sherman Street, Room 215, Denver, Colorado 80203.

Please provide a signed affidavit that such notice was posted according to the provisions of this Rule. A template for the notice and affidavit is included with the 112d Application Form available at the Division's website. Please also submit a photograph of the notice posted at the site.

The application cannot be filed until all the items/information listed above is received and found sufficient to begin our review. Please submit all necessary documents in order to address the above listed deficiencies within sixty days. If, after sixty days, the application is still incomplete, the Division may deny the application and terminate the application file.

This letter shall not be construed to mean that there are no other technical deficiencies in your application. Once the application is filed, the Division will review the application in order to determine whether it is adequate to meet the requirements of the *Colorado Mined Land Reclamation Act* (Act) and the associated *Mineral Rules and Regulations of the Colorado Mined Land Reclamation Board for Hard Rock, Metal, and Designated Mining Operations* (Rules).
