Request for assistance with SL-07 application

Hello, Janet

I am requesting your help with an application that we received on April 1, 2021. I have not found it complete or scheduled an inspection yet, so we have some time. Mostly, I want your assistance with review of the technical report written by Cedar Creek.

You can find the application in Laserfiche. The technical report begins on page 14 of the pdf.

Thanks in advance.

Rob
