Re: File No. M-1980-120, Koenig Sand and Gravel Pit – Technical Revision Request

Dear DRMS:

Weld County is in the process of reclaiming the above mentioned gravel pit. The land owner has constructed infrastructure that will be used as support for the post reclamation land use of developed water storage. The infrastructure that has been constructed but is not shown on the reclamation plan map includes a maintenance/shop building, a outdoor storage area, two pump stations, reservoir inlet, riprap shore protection, and an access/maintenance road that surrounds the reservoir. Two access gates and all the existing fences will also be left at the landowner's request.

Please call with any questions.

Sincerely,

Clay Kimmi, P.E.  
**Weld County Public Works**
