RE: Climax Molybdenum Company, Permit No. M-1977-342, Technical Revision No. 34 - Second Decision Date Extension Request

Dear Mr. Hays:

Climax Molybdenum Company (CMC) submitted a request for Technical Revision No. 34 to the Henderson Reclamation Permit on March 5, 2021. Pursuant to Rule 1.9.1, the Division of Reclamation, Mining and Safety (DRMS) "shall act on a Technical Revision application within thirty (30) days after the Technical Revision has been filed with the Office". In order to provide additional time for the DRMS to review and inspect aspects of the revised Environmental Protection Plan, CMC requested a 30-day decision date extension on March 31, which was accepted by the DRMS. CMC would like to request a second 30-day extension, which will change the decision date to June 3, 2021.

If you have any questions, please contact me at (720) 942-3255.

Sincerely,

A handwritten signature in blue ink that reads 'Miguel Hamarat'.
