**RE: New Horizon Mine (Permit No. C-1981-008)
Minor Revision No. 119 (MR-119)
SP2 Inlet Structure**

Dear Mrs. Binns:

Tri-State Generation and Transmission Association Inc. (Tri-State), is the parent company to Elk Ridge Mining and Reclamation, LCC (ERMRL), which owns and operates the New Horizon Mine. The New Horizon Mine operates under the Division of Reclamation, Mining and Safety (DRMS) Permit No. C-1981-008. Therefore, Tri-State on behalf of ERMRL is submitting MR-119.

MR-119 proposes to construct a small rock lined channel at the east inlet to the SP2 stock pond to mitigate unanticipated erosional issues that are occurring on the structure.

If you have any questions about the enclosed technical revision, please contact Tony Tennyson at (970) 326-3560 or ttennyson@tristategt.org.

Sincerely,
