RE: Leadville Mill, Permit # M-1990-057, Incomplete 112d Conversion Application Package (CN-01)

Mr. Michael:

On May 5, 2021, the Division of Reclamation, Mining and Safety (Division) received your response to my letter dated April 22, 2021, notifying you that your Conversion Application Package (CN-01) was incomplete. Upon reviewing the materials submitted, the Division noted several items remaining to be addressed before the Division can consider the application complete for the purpose of filing, and technical review can begin:

1. **Application Form:** Please correct item #1 on page one of the application form. Permit # M-1990-057 is currently issued to Union Milling Company, LLC, so this is the company name that should be used on the application form.
2. **Exhibit R – Proof of Filing with County Clerk and Recorder:** Please submit an affidavit or receipt indicating the date on which the application was placed with the local County Clerk and Recorder for public review, pursuant to Rule 1.6.2(1)(c).

The application cannot be filed until all the items/information listed above is received and found sufficient to begin our review. Please submit all necessary documents in order to address the above listed deficiencies within sixty days. If, after sixty days, the application is still incomplete, the Division may deny the application and terminate the application file.

This letter shall not be construed to mean that there are no other technical deficiencies in your application. Once the application is filed, the Division will review the application in order to determine whether it is adequate to meet the requirements of the *Colorado Mined Land Reclamation Act* (Act) and the associated *Mineral Rules and Regulations of the Colorado Mined Land Reclamation Board for Hard Rock, Metal, and Designated Mining Operations* (Rules).

If you require additional information, or have questions or concerns, please contact me.

Sincerely,

A handwritten signature in blue ink, appearing to read 'Dustin Czapla'.
