RE: Schwartzwalder Mine, Permit No. M-1977-300, Approval of Alternate Reporting Schedule for Required Water Monitoring

Mr. Harrington:

On May 5, 2021, the Division of Reclamation, Mining and Safety (Division) received your request for an alternate reporting schedule for the required quarterly water monitoring at the Schwartzwalder Mine. The Division has recently begun requiring operators to submit any required quarterly water monitoring data within 30 days of the last day of that quarter. However, according to your request, additional time is needed for this site due to various factors, including the analytical turnaround time required for radiological analytes.

After considering your request, the Division has approved the following alternate reporting schedule for this site:

- 1st quarter data – due by June 1
- 2nd quarter data – due by September 1
- 3rd quarter data – due by December 1
- 4th quarter data – due by March 1 (of the following year)

Please be advised, a failure to submit the required monitoring data by the deadline above may result in enforcement actions (unless a case-specific extension has been approved by the Division prior to the applicable deadline).

If you have any questions, you may contact me by telephone at 303-866-3567, ext. 8129, or by email at amy.eschberger@state.co.us.

Sincerely,

Amy Eschberger
Environmental Protection Specialist
