**RE: Climax Molybdenum Company, Permit No. M-1977-342, Technical Revision No. 34 - Third Decision Date Extension Request**

Dear Mr. Hays:

Climax Molybdenum Company (CMC) submitted a request for Technical Revision No. 34 to the Henderson Reclamation Permit on March 5, 2021. Pursuant to Rule 1.9.1, the Division of Reclamation, Mining and Safety (DRMS) "shall act on a Technical Revision application within thirty (30) days after the Technical Revision has been filed with the Office". In order to provide additional time for the DRMS to review and inspect aspects of the revised Environmental Protection Plan, CMC has requested two 30-day decision date extensions, the first on March 31 and the second on May 6. CMC would like to request a third, 30-day extension, which will change the decision date to July 3, 2021.

If you have any questions, please contact me at (720) 942-3255.

Sincerely,

A handwritten signature in blue ink that reads 'Miguel Hamarat'.
