**RE: Preliminary Adequacy Review; Technical Revision (TR-08); Hazeltine Mine,
Permit No. M-2004-031**

Dear Ms. Dennis,

On June 14, 2021, the Division of Reclamation, Mining and Safety (Division) received a request for Technical Revision (TR-08) to update the reclamation plan maps to reflect the current infrastructure and piping of the Orr Drain construction at the Hazeltine Mine, Permit No. M-2004-031. Please be advised that on July 15, 2021, the application for TR-08 may be deemed inadequate and denied unless the following adequacy items are addressed to the Division's satisfaction. Please respond to the adequacy items with a letter summarizing each response, to the numbered items below, in a cover letter titled "Preliminary Adequacy Review Response TR-08, M-2004-031".

1. Please provide a Reclamation Plan Map that shows the location of the overflow drain lines within the 184.90 acre permit area. Please note the map must meet the requirements of Rule 6.2.1(2).
2. During the October 28, 2020 inspection it was noted construction had begun on pump infrastructure and associated piping in the southern most portion of the mine. Please provide some details, similar to overflow drain lines, associated with the construction. Also, please show the location of the pump station and piping on the Reclamation Plan Map mentioned in #1.

This concludes the Division's preliminary adequacy review of your technical revision. The Division reserves the right to further supplement this document with additional adequacy items and/or details as necessary.

The decision date for your application is set for July 15, 2021. However, please allow the Division sufficient time to complete its review by submitting your response no later than five (5) working days prior to the decision date. If additional time is needed to respond, an extension request must be received by our Office by the decision date. If on the decision date, outstanding adequacy items remain, and no extension request has been received, your revision may be denied.

If you need additional information or have any questions, please contact me at Division of Reclamation, Mining and Safety, 1313 Sherman Street, Room 215, Denver, CO 80203, by telephone at **303-866-3567 x8114**, or by email at patrick.lennberg@state.co.us.

Sincerely,

Patrick Lennberg
Environmental Protection Specialist
