**RE: Reduction of Groundwater Level Monitoring Frequency from Monthly to Quarterly; Pueblo East Pit, Permit No. M-2000-041**

Dear Ms. Schreiber,

On July 5, 2021, the Division of Reclamation, Mining and Safety (Division) received a request to reduce the frequency of groundwater level monitoring from monthly to quarterly at the Pueblo East Pit, Permit No. M-2000-041. As you indicated in Appendix H of the approved Amendment 1 (AM-1) frequency of monitoring is to be reduced from monthly to quarterly upon completion of the slurry wall. The SEO approved the slurry wall leak test on July 10, 2019. The Division agrees the frequency of monitoring can be reduced to quarterly.

If you need additional information or have any questions, please contact me at Division of Reclamation, Mining and Safety, 1313 Sherman Street, Room 215, Denver, CO 80203, by telephone at **303-866-3567 x8114**, or by email at [patrick.lennberg@state.co.us](mailto:patrick.lennberg@state.co.us).

Sincerely,

Patrick Lennberg  
Environmental Protection Specialist
