**Re: Lyster Pit, Permit No. M-2008-009, Acreage Reduction No. 2 Adequacy Review**

Dear Mr. Burkey:

On April 28, 2021 the Division of Reclamation, Mining and Safety (the Division) received an application for an acreage reduction at the Lyster Pit. The Division deemed the application complete on May 5, 2021 and an inspection of the mine site was conducted on June 2, 2021. The Division has completed reviewing the application materials and has the following adequacy items:

1. Please provide the Division with an updated mine plane map that will accurately depict the new permit boundary. The map must contain all items required by Rule 6.2
2. Please provide the Division with an updated reclamation plan map that will also depict the new permit boundary. The map must contain all items required by Rule 6.2.

These maps must be provided to the Division in order to approve the acreage reduction request. Please provide the required items to the Division no later than Monday July 26, 2021.

This concludes the Division's adequacy review of the application for Acreage Reduction No. 2. If you have any questions or concerns, please feel free to contact me at [clayton.wein@state.co.us](mailto:clayton.wein@state.co.us) or (303) 866-3567 x8144.

Sincerely,

Clayton C. Wein  
Environmental Protection Specialist
