Gunnison River Gravel Pits, Permit No. M-2009-048, Inspection Problem Abated-2

Dear Mr. Weaver:

On March 17, 2021 the Division of Reclamation, Mining and Safety (Division) conducted an inspection of the above referenced site. Signs and Markers was cited as a problem for displaying the incorrect Operators name on the mine sign. Corrective actions required you to submit photo documentation that an updated mine sign has been posted by the corrective action date.

On July 14, 2021 the Division received photo documentation that a correct mine sign has been posted as required by Rule 3.1.12. This satisfies the corrective action and it is considered abated.

If you require additional information, or have questions or concerns, please feel free to contact me.

Sincerely,

Amy C Yeldell
Environmental Protection Specialist

EC: Travis Marshall, Senior EPS, DRMS
