RE: Green/Croissant Property Sand and Gravel Mine - File No. M-2001-022, Loveland Ready-Mix Concrete, Inc.

Acreage Release Request Application (AR-4)

I, Jamie Christensen, am objecting to any release of any part of mining Claim M-2001-022 for the following reasons.

1. The request is premature. The bridge design has changed several times since the county, without our permission sent LRM copies of a bridge design. There have been several instances of misrepresenting the facts and this is no exception. We have asked the county not to communicate with anyone that does not have legal authority to do so in regards to our property. We last had a county meeting on July 12<sup>th</sup> 2021 and are working on the details. The county has agreed to give us a 24 foot access for future commercial use. I received an email from Mike Bedell on July 20<sup>th</sup>, 2021 in regards to a new design that he stated they will try to have done, hopefully by the end of this month. There are several factors to address with the county requesting to move our access and do not know when it will be completed and how much it will actually affect the reclamation. We will update DRMS as soon we settle on an agreement. We have hired an Eminent Domain lawyer to handle and finalize all negotiations with the county on our behalf.
2. No release should be considered unless all issues that DRMS has been directed to fix are completed and inspected by DRMS. There are several issues with no date of completion issued so do we not know when to expect all the work to be done.
3. Water quality. The water samples done by Telesto, hired by LRM in June have conveniently been lost. That is what Telesto told us directly. (see pictures I previously submitted)
4. We are still waiting to see when and how LRM fixes the slope issues.
5. The pipe that LRM left in the river with a large hole has not been fixed or addressed
6. We are going to request to go before the board but have been advised to wait to see what items get fixed and what items would be left for the DRMS board to make a decisions on.
