Re: Pueblo East and West pits Permit No M-1986-015 and M-1977-573

Dear Patrick:

After discussions with Kent Ricken at CWPDA, we are requesting a 45 day extension to allow the new operators at Pueblo Pits East and West to apply for a deed of trust as the financial security for the referenced reclamation. The merger of the CWPDA and AGUA water boards has been approved last week and they are prepared to move forward with the SO.

Thank you for your consideration of this matter.

Sincerely,

A handwritten signature in cursive script that reads "Jerald Schnabel".

To: Jerald Schnabel <Jerald_Schnabel@castleaggregate.com>, Kent Ricken <kent@cwpa.org>

Good Morning,

I was out on inspection all day yesterday but did not receive an extension request for the due date for SO4 at Pueblo East and Pueblo West.

Please submit an extension request by the close of business today. If no request is received the Division will deny the applications.

Please let me know if you have any questions.

Thank you,
Patrick

Patrick

I apologize for not sending this last night. I was fighting the Net DMR system to get My water monitoring reports to go through.

Please review the attached letter. The deed of trust request is not often used but it may make sense in this case.

Jerry
