Re: VIMA Partners, LLC, Raindance Reservoir #2, File No. M-2021-049, Incomplete Submittal of 112 Construction Materials Reclamation Permit Application Package

Mr. Lind:

On July 19, 2021, the Division of Reclamation, Mining and Safety (Division/DRMS) received the 112 Construction Materials Reclamation Permit Application package from VIMA Partners, LLC for the Raindance Reservoir #2 site, File No. M-2021-049. Preliminary review of the information received determined the following items must be received before the Division can consider the application as being submitted and technical review can begin:

Application Form

1. On Page 1, Item #3 of the application form, the Applicant indicates the site is permitted for 30 acres and the Applicant intends to add 61.1 acres for a total permitted acreage of 91.1 acres. The Division approved a 111 Special Operations Reclamation Permit on May 10, 2021 for a portion of the proposed site. 111 Special Operation permit amendments are not allowed by statute, pursuant to Rule 1.10.2. The Division will require the Applicant to permit over the existing 111 site with the 112 application. Please revise Item #3 to indicate the total proposed acreage of 91.1 acres.
2. The Division requires the permit application list the exact company name registered with the Colorado Secretary of State, "VIMA Partner, LLC". Please revise the company name on the Company name and notary sections of the certification page, Page 8, of the application form, to indicate "VIMA Partner, LLC", instead of "VIMA Partner LLC".

6.4.1 Exhibit A - Legal Description

3. Rule 6.4.1(1) states the legal description shall be by, township, range and section, to at least the nearest quarter-quarter section. The Applicant provided the legal description to the nearest half section only in Exhibit A. Please provide the legal description to the nearest quarter-quarter section as required by Rule 6.4.1 in Exhibit A.

6.4.18 Exhibit R - Proof of Filing with County Clerk and Recorder

4. Please provide an affidavit or receipt indicating the date on which the revised application documents were placed with the Weld County Clerk and Recorder in response to this letter.

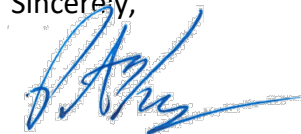

The application will not be considered submitted until the information listed above is received and found sufficient to begin our review. A decision date will be established 90 days from the date of receipt of all of the requested information. Additionally, if you have already published notice you will need to republish notice, after the Division considers the application submitted. This notice must be published once a week for four (4) consecutive weeks, starting within ten (10) days of the date your application is considered submitted. We will notify you when you should initiate republication of your notice. The final date for receiving comments is the twentieth (20th) day after the fourth publication or the next regular business day.

You have sixty (60) days from the date of this letter to submit all necessary documents the Office needs for the application to be considered filed. If, at the end of the sixty day period, the application has not been determined to be filed with the Office, the Office shall deny the application and terminate the application file.

The response due date is September 28, 2021.

This letter shall not be construed to mean there are no other technical deficiencies in your application. The Division will review your application to determine whether it is adequate to meet the requirements of the Act after submittal of all required items.

Sincerely,

Peter S. Hays
Environmental Protection Specialist
