Mr. Hays,

I live on Alpine Sky Drive in Berthoud and have been impacted by the mining permit that has been issued to remove dirt from the old motor cross track to be used on the I25 construction project.

The operations extended beyond the day shift we have been dealing with. The truck traffic went beyond midnight last night! They are using engine breaks and creating extensive noise that is affecting our ability to sleep.

Why are they using WCR7 in the first place since the permit that I read shows that they would use the east access to the mining site?

One of the trucks this week failed to stop before checking for traffic and would have collided with me if I hadn't alerted him with my pickup truck horn. He swerved to avoid contact.

Please call me today to discuss this issue in more detail and hopefully provide a solution for this noise and safety concern.

Thank you.

Mr. Coleman,

Your complaint against the Motorcross Pit was received by the Division. A previous complaint and your complaint are under investigation by the Division.

Peter S. Hays
Environmental Protection Specialist

COLORADO
Division of Reclamation,
Mining and Safety
Department of Natural Resources
