RE: Cross Gold Mine, Permit No. M-1977-410 Technical Revision No. 9, Preliminary Adequacy Review

Dear Ms. Eschberger:

I have received the slope stability analysis for TR9, however, need a couple days to circulate for approval. Therefore, I am requesting a 45-day extension for our response to TR No. 9 (45 days because 30 days falls on the Labor Day holiday). The new determination date will be September 22, 2021.

Thank you for continuing to work with us throughout this process and I look forward to providing you the requested information once the extension is approved.

Please do not hesitate to contact me directly with any additional questions or concerns.

Sincerely,

Daniel Pollock
