Cheyenne County, Colorado

Rother Pit #2

A portion of the NW 1/4, Section 24, T16S, R43W, 6th P.M.
Cheyenne County, Colorado

Property Description Rother Pit #2

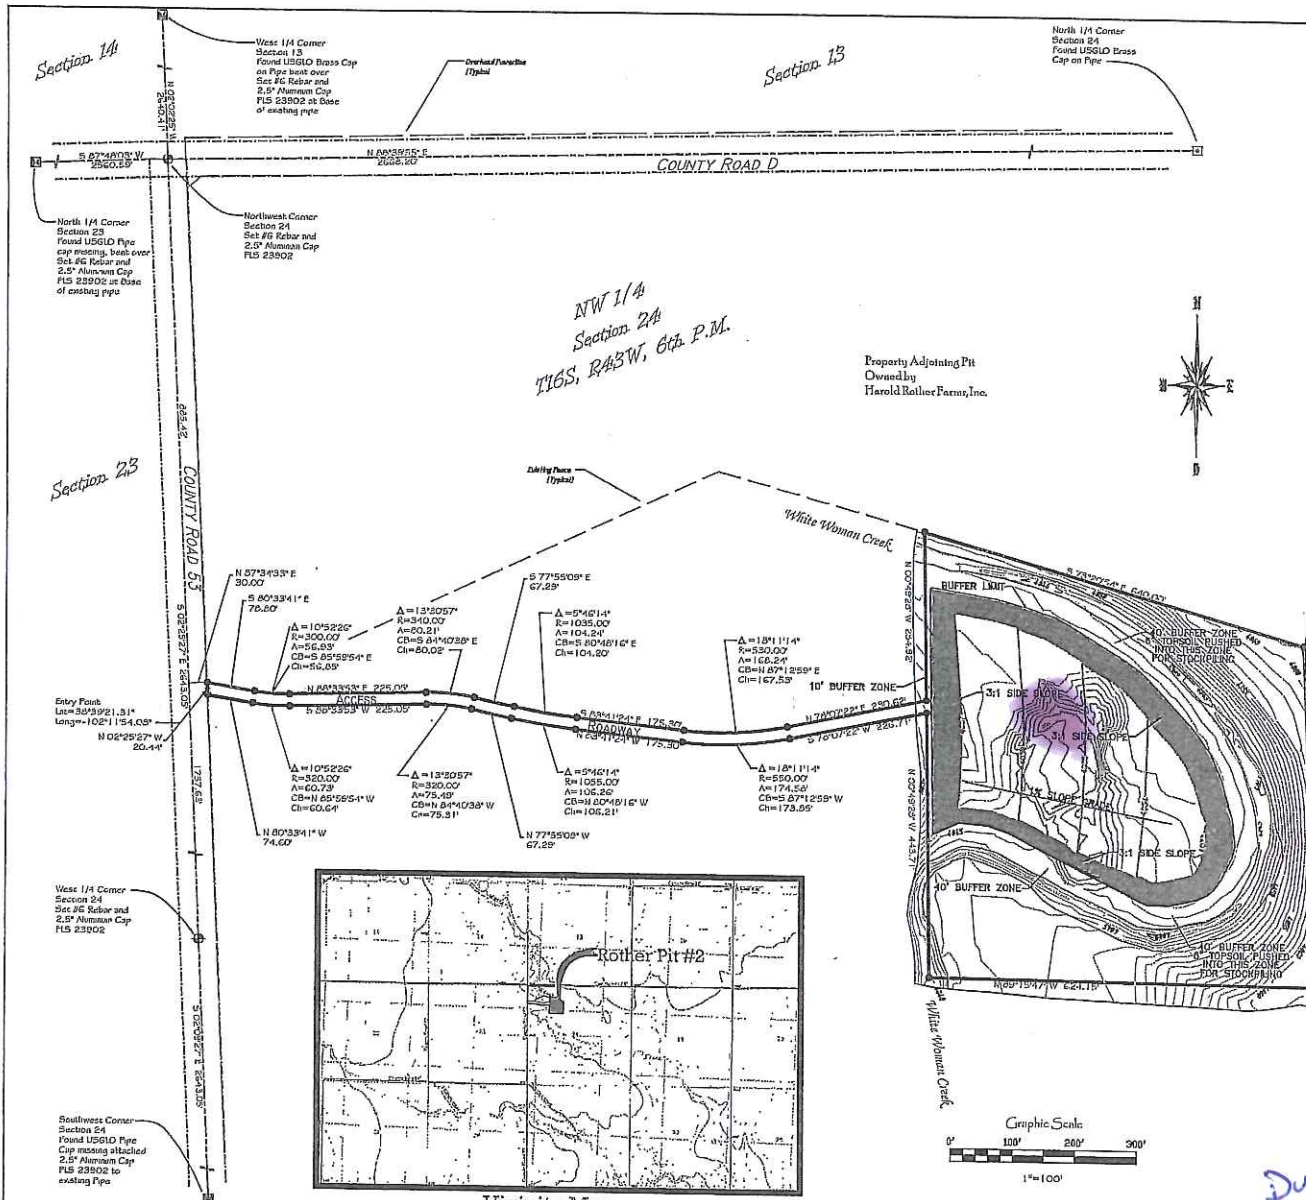

A tract of land situated in the North half of the Northwest Quarter (N1/2NW1/4) of Section 24, Township 16 South, Range 43 West of the 6th Principal Meridian, Cheyenne County, Colorado.

Mining Plan

1. Mining will commence in the summer of 2019 in the east portion of the buffer zone of the approximately 10-acre permitted area and progress west as needed. A 40-foot buffer zone separates the river bank and the area of operation. A 10-foot buffer zone separates the western permit boundary from the operations boundary area. The permit.
2. Mining will begin by doing the approximately 0.5-foot of top soils to the edges of the 40-foot buffer to create a berm and protect the operations area. The top soil will be used during the reclamation phase.
3. Upon clearing the approximate 0.5-foot of topsoil, mining of entire soils will begin to the approximate lines and grades shown in this drawing. Cheyenne County will take great care during excavation to not extend the excavation beyond the buffer zone.
4. The extent of the coal and gravel to be mined is undetermined until Cheyenne County starts excavating the permit area. The grades and depth of the excavation area are approximate and could change depending on the site conditions during excavation.
5. The full mining plan is included in Exhibit C of the Mining Application.

Reclamation Plan

1. Once final excavation grades are met in the excavation area, top soils will be placed over the excavated area to begin the reclamation phase of the mining process.
2. Once the top soil is spread over the excavation area, the disturbed area will be fertilized and re-seeded as needed.
3. The road to the pit will be removed and reclaimed back to its natural condition.
4. The full reclamation plan is included in Exhibit D of the Mining Application.
