Re: North Taft Hill Expansion Site, Permit No. M-2001-051, Status of Required Corrective Actions

Ms. Mikulas:

The Division of Reclamation, Mining and Safety (Division) has the following status update on the following problem(s) identified in its June 8, 2021 inspection report:

INSPECTION TOPIC: Right of Entry

PROBLEM: The Division has no evidence the operator has the legal right to enter to conduct mining and reclamation for all owners of record of the surface and mineral rights of the affected lands, as required by Rule 6.4.14 and C.R.S. 34-32.5-112(1)(c)(IV).

CORRECTIVE ACTIONS: By the corrective action date, the operator must provide documentation of its legal right to enter to conduct mining and reclamation for all owners of record of the affected land. This may include a copy of a lease, deed, abstract of title, a current tax receipt, or a signed statement by the landowner and acknowledged by a Notary Public stating the operator has the legal right to enter to conduct mining and reclamation.

CORRECTIVE ACTION DUE DATE: August 8, 2021

STATUS UPDATE: *On August 3 and 5, 2021, the operator provided the Division with documentation of its legal right to enter to conduct mining and reclamation on the affected lands. Therefore, this problem is considered abated.*
