Elliott-yes i will need an extension to fully address the adequacy issues for the AM1 amendment application.  
requesting 45 days, and will try to expedite this revision.  
thanks  
Lance Barker

Lance,

Attached is the adequacy review letter for your Amendment Application AM1 on the Mineral Mountain Project, Permit No. M-2014-045. I have attached the additional adequacy review memo from Leigh Simmons that will need to be addressed as well. Lastly, I have included the comment letter received from History Colorado. I am still working remotely, therefore a hard copy of these documents will not be sent unless you specifically request them to be mailed to you too.

As we are quickly approaching the decision date, please let me know if you will need an extension request to resolve the adequacy issues. If you do need more time, please just send me an email with an attached letter requesting an extension of the decision date and provide a specific amount of additional time needed (per Rule this can be up to 365 days from when the application was considered filed) or to a specific date.

Please let me know if you have any questions.

Thanks,

Elliott Russell
