**RE: Adequacy Review No. 2; 112c Construction Materials Permit Application,
River Run Ranch Gravel Mining, Permit No. M-2021-001**

Dear Mr. Bauman:

On August 5, 2021 the applicant responded to the Division's Preliminary Adequacy Review dated June 8, 2021. After review of the responses the Division has additional items that need to be addressed or clarified. If you are unable to satisfactorily address any concerns identified in this review before the decision date, it will be your responsibility to request an extension of the review period. If there are outstanding issues that have not been adequately addressed prior to the end of the review period (August 31, 2021), and no extension has been requested, the Division will deny this application. Subsequent to receipt and review of the applicant's response to these items the Division may identify additional adequacy items. Please respond to this Adequacy Review No. 2 with the requested additional/updated information on permit replacement pages and summarize each response in a cover letter titled "Adequacy Review No. 2 Response; M-2021-001".

EXHIBIT C – Pre-Mining and Mining Plan Map(s) of Affected Lands (Rule 6.4.3):

1. During review of the updated maps the Division determined there was an inconsistency between the sum of the acreages of the individual tracts, 430.45 acres, and the acreage on the permit application 426.6 acres. The Division reached out to the applicant and it was discovered the permit acreage is 424.7 acres. Please update the Exhibit C maps as well as the Exhibit F map to reflect the correct acreage. Additionally, please provide a new and updated page 1 of the Application to reflect the new mine permit acres.

Other:

2. Pursuant to Rule 1.6.2(2), please demonstrate that the applicant's response to these adequacy issues have been placed with the application materials previously placed with the County Clerk or Records Office, and made available for public review

Please respond to these adequacy issues no later than one week before the decision deadline, to ensure ample time for the Division to complete its review prior to its decision deadline. The decision deadline on this application is August 31, 2021. If additional time is required to respond to these adequacy issues please submit a written request for extension of the review period. The Division reserves the right to further supplement this document with additional adequacy issues and details as necessary.

If you need additional information or have any questions, please contact me at Division of Reclamation, Mining and Safety, 1313 Sherman Street, Room 215, Denver, CO 80203, by telephone at **303-866-3567 x8114**, or by email at patrick.lennberg@state.co.us.

Sincerely,

Patrick Lennberg
