**RE: Aggregate Industries-WCR, Inc. Amendment No. 7 to the Morrison Quarry (M-1973-021)  
112 Reclamation Permit – Adequacy Review Response Extension Request**

Dear Mr. Scott,

Aggregate Industries-WCR Inc. (AI) is in the process of finalizing reports from consultants and completing the response to the Division of Reclamation Mining and Safety (“DRMS”) Morrison Quarry M-1973-021 AM -07 adequacy review. AI believes finalization of the reports should be complete by August 21, 2021. AI therefore respectfully requests an extension of the existing decision date of August 16, 2021 to October 15, 2021.

This extension will allow AI time to thoroughly review the reports and make any additional revisions necessary to ensure they completely address the DRMS adequacy comments. AI understands that once its response is submitted, DRMS staff could provide a decision earlier than the requested extended decision date. AI is committed to partnering with DRMS and appreciates your consideration of Aggregate Industries’ extension request.

Should you have any questions or require additional information, please reach out to Jeremy Pritchett at 970-396-5252 or by email at [Jeremy.pritchett@lafargeholcim.com](mailto:Jeremy.pritchett@lafargeholcim.com).

Sincerely,

A handwritten signature in blue ink that reads "Kimberly Dennis".

Kimberly Dennis  
Environmental Director
