*Re: Trapper Mining Inc., Permit No. C-1981-010*

---

**Technical Revision TR-128: Mine Pit Limit Updates, Coyote Impoundment As-built Drawing and Permit Text Updates.**

Dear Ms. Reilley:

Enclosed is a copy of a technical revision to achieve the above referenced permit updates. The enclosed material includes text, tables and maps that present the proposed changes. Proposed changes and permit updates include:

- Revised ownership information for Trapper Mine. Tri-State Generation and Transmission terminated their ownership of Trapper Mine in December of 2020.
- Modifications to the Coyote Pond spillway design have been completed and a new as-built diagram has been included incorporating the changes at the site. This figure can replace the current “proposed” drawing in Appendix Q, Section III for the Coyote Pond.
- Map M10A and M4 have been updated to reflect the change in orientation of the L-Pit cuts in the southern end of the pit area. The remaining cuts will be completed as strike line cuts as opposed to the currently permitted dipline cuts. This change will not have any adverse impact on current bonding or proposed post mine contours and reclamation for this area of L-Pit.

The following revised permit text pages are enclosed and updated as follows:

- 1-4. Removed Tri-State references and updated application contact.
- 1-5 to 1-7c. Removed Tri-State references.

The following revised permit tables and figures are enclosed:

- Table 1.2-2 (page 1-11). Removed Tri-State referenced affiliate operations.
- Table 4.8-13a (page 4-244). Updated quarterly monitoring requirements for well 81-03A as noted in comments received on the review of the 2020 Annual Hydrology Report.
- Appendix Q, Section III; Coyote Impoundment As-Built Diagram

The following revised maps are enclosed:

- M4. Updated L-Pit orientation for remainder of the permit term.
- M10A, Sheet 3. Updated L-Pit orientation for remainder of the permit term.

Please contact us with any questions, comments or concerns.

Sincerely,

A handwritten signature in cursive script, appearing to read "Graham Roberts", followed by a horizontal line.
