## Inspection Topic Summary

NOTE: Y=Inspected N=Not Inspected R=Comments Noted V=Violation Issued NA=Not Applicable

N - Air Resource Protection  
N - Availability of Records  
N - Backfill & Grading  
N - Excess Spoil and Dev. Waste  
N - Explosives  
N - Fish & Wildlife  
N - Hydrologic Balance  
R - Gen. Compliance With Mine Plan  
N - Other  
N - Processing Waste

Y - Roads  
N - Reclamation Success  
N - Revegetation  
N - Subsidence  
N - Slides and Other Damage  
N - Support Facilities On-site  
Y - Signs and Markers  
N - Support Facilities Not On-site  
N - Special Categories Of Mining  
Y - Topsoil

## COMMENTS

This was a partial inspection of the Foidel Creek Mine; DRMS Permit No. C-1982-056, operated by Twentymile Coal, LLC. (TC). This inspection was conducted by Tabetha Lynch with the Colorado Division of Reclamation, Mining, and Safety (Division). Overall the weather was clear and hot during the inspection.

### GENERAL MINE PLAN COMPLIANCE:

The trash has been cleaned out of the portal ditch as requested in the previous inspection.

The 12L borehole pad was checked for clean-up and reclamation progress. An electric fence has been placed around the 12L pad and topsoil pile.

Electric fence at 12L shown above

Coal fines have been cleaned up on the pad.

12 L borehole is no longer backing up and pad will be reclaimed per operator.

At the time of inspection a drill was on site attempting to re-develop the 16L dewatering borehole. Photo below

At the time of inspection, MR319 was discussed with the operator, as a new dewatering borehole that would be proposed to branch off the existing access road to 16L.

The proposed location of 18L was observed, as well as a potential route for the access road. The property is owned by Camelletii/ Chance and the operator stated they were working on updating the lease with the surface owners. A GPS location of the proposed location of the pad was collected. Operator will be updating the county special use permit as well for the 18L pad and the TR97 revision currently under review.

Above shows the proposed location of the 18L dewatering borehole Looking NE

Above shows the proposed location of the 18L dewatering borehole looking SW to proposed access road

A cultural survey was to be started on the day of this inspection for the proposed area.

**DOCUMENTS RECEIVED**

**OTHER (SPECIFY)**

**ENFORCEMENT ACTIONS/COMPLIANCE**

No enforcement actions were initiated as a result of this inspection, nor are any pending.
