Zach –

I am requesting your help reviewing the waste bank reports for the Bowie No. 2 Mine from the First Quarter of 2021. There are five reports and all are attached to this email.

1. Tamme Bishop's inspection reports (and certifications) for three of the four "gob piles" (It is unclear why she did not include an inspection of Gob Pile #4.)
2. The Huddleston-Berry report for Gob Pile #2, Instrumentation Monitoring
3. The Huddleston-Berry report for Gob Pile #3, Instrumentation Monitoring
4. The Huddleston-Berry report for Construction Materials Testing (compaction testing)
5. A map with compaction test locations.

Please provide a review memo to me by September 24, 2021 or soon after. I will upload this email request to Laserfiche.

Thanks,
Rob
