Hello Scott

Would you please contact Randy Keller tomorrow and arrange a suitable time to meet with him at the site re the road maintenance Zephyr undertook. It appears our contractor may have widened the road which is not permissible under the terms of our agreement. Please work out with Randy as to what can be done to mitigate this error. Randy mentioned some seeding may work. Please ask Randy to identify the property boundary with the Diamond Placer claim and ascertain if some repair work is required there as well. I believe the gate is about 5 feet south into the American Placer on the west side and 20 feet south on the east side.

Randy can be reached at 719 276 6622. Randy --- Scott's cell number is 520 954 3435. I am available at 902 488 9937.

Thanx,

Will
