Sent via email:

**RE: Acreage Reduction Confirmation Response; Technical Revision (TR-2); Sheep Mountain Ranch,
Permit No. M-2017-022**

Dear Mr. Lennberg:

The Technical Revision (TR-2) application to update the reclamation plan map that was submitted on August 27, 2021 contained an inaccuracy in the change of acreage for permit, affected, and private land areas. This inaccuracy stated that the intent was to increase the acreage of these land areas by 23.0 acres. We are instead asking to reduce the permit, affected, and private land areas by 23.0 acres, which is the full acreage of these lands.

Please contact me at (303) 452-6611 or dawnbrady@applegategroup.com with any questions regarding this statement.

Sincerely,
Applegate Group, Inc.

Dawn Brady
Water Resource Engineer

Patrick,

I have attached a response letter and an updated map. I did intend for the acreage to be reduced by 23.0 acres rather than increased by that amount. Thank you for catching that. I attached your letter for Carol, Scott, and Steve's reference.

Please let me know if you have any questions.
