Roundup® Weed & Grass Killer Super Concentrate
Roundup® Mata Malezas y Gramas Súper Concentrado

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS & DOMESTIC ANIMALS

Keep Out of Reach of Children

CAUTION: Causes moderate eye irritation. Avoid contact with eyes or clothing.
Wash thoroughly with soap and water after handling.
People and pets may enter treated areas after spray has dried.

FIRST AID

- IF IN EYES**
- Hold eye open and rinse slowly and gently with water for 15-20 minutes.
 - Remove contact lenses, if present, after first 5 minutes, then continue rinsing eyes.
 - Call a poison control center, 1-800-246-7219, or doctor for treatment advice.

EMERGENCY MEDICAL INFORMATION

- Have the product container or label with you when calling a poison control center or doctor, or going for treatment.
- You may contact 1-800-246-7219 for emergency medical treatment information.
- This product is identified as **Roundup® Weed & Grass Killer Super Concentrate**, EPA Reg. No. 71995-25.

ENVIRONMENTAL HAZARDS: To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area. Rinsing application equipment over the treated area will help avoid run off to water bodies or drainage systems.

STORAGE AND DISPOSAL

PESTICIDE STORAGE: Store product in original container in a safe place away from direct sunlight.

PESTICIDE DISPOSAL: Nonrefillable container. Do not reuse or refill this container. **If Empty:** Do not reuse this container. Place in trash or offer for recycling if available. **If Partly Filled:** Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

PRODUCT FACTS KILLS ALL TYPES OF WEEDS & GRASSES

Makes up to 23 Gallons

Treats up to 6,900 sq ft

HOW IT WORKS: Roundup® Weed & Grass Killer Super Concentrate is absorbed by the weed's leaves. It moves through the weed to the root, stopping the production of an essential enzyme found in plants (but not in humans or animals). Weeds die, roots and all – so they don't grow back. Kills only what you spray. Any product not absorbed by plants breaks down without moving in or on the soil to untreated plants. Weeds usually yellow and wilt within 2 to 4 days with complete kill in 1 to 2 weeks.

WHERE TO USE

- On patios, walkways, driveways, gravel or mulch beds
- Around fruits, vegetables, flowers, shrubs or trees
- Along fences
- In large areas

- For lawn replacement - For garden plot preparation

MIXING INSTRUCTIONS

Tank Sprayer: Use of a Roundup® Brand Sprayer is recommended. A plastic, fiberglass, plastic-lined steel or stainless steel sprayer may also be used.

- For best results, add 2-1/2 fl oz (5 Tbs) to 1 gallon of water.
- Spot treat or spray evenly over 300 sq ft.

For easy to kill weeds such as seedlings, add 1-1/2 fl oz (3 Tbs) to 1 gallon of water.

Hose-End Sprayer: For large areas, consider using the Ortho® Dial 'n Spray®

- Set dial to 2-1/2 oz.
- To sprayer jar add 2-1/2 fl oz (5 Tbs) for each 300 sq ft. **DO NOT** add water.
- Spray evenly over measured area.
- After spraying, unused product can be poured back into its original container.

1 Tablespoon (Tbs) = 3 teaspoons (tsp)

1 fl oz = 2 Tbs

Do not mix, store or apply with a galvanized or unlined steel (except stainless steel) sprayer, or through any irrigation system.

HOW TO APPLY

- Spray the weeds or grasses you want to kill until thoroughly wet.
- When spot treating weeds around desirable plants, shield plants from drift with a sheet of cardboard or plastic. If desirable plants are accidentally sprayed, rinse off immediately with water.

IMPORTANT: Do not spray plants or grasses you like – they will die. Not recommended for spot weed control in lawns since glyphosate kills lawn grasses.

WHEN TO APPLY

- Apply when weeds are actively growing.
- For best results, apply during warm, sunny weather (above 60° F) to accelerate systemic movement from foliage to roots.
- Apply when air is calm to prevent drift to desirable plants.
- **RAINPROOF Protection:** Rain or watering 30 minutes after application will NOT wash away effectiveness.
- If used to control weeds around fruit or nut trees, caneberries, or grapevines, allow 17 days before harvesting.

WHEN TO REPLANT

- All ornamental flowers, trees and shrubs may be planted **1 day after** application.
- Lawn grasses, herbs, vegetables (all), and fruits may be planted **3 days after** application.

HOW TO CLEAN SPRAYER: To clean sprayer after use, rinse sprayer and all sprayer parts with water 3 times. Spray rinse water on bare soil or gravel. After cleaning, sprayer may be used for other products.

ADDITIONAL TIPS**To Kill Vines**

- If vines are growing up poles, fences, or tree trunks with mature bark, cut vines to a height of 3 to 4 feet and spray vines thoroughly.
- If vines are climbing shrubs or tree trunks with green bark, cut vines at base and treat as directed for stumps or spray regrowth. If spraying regrowth, shield shrubs and tree trunks from spray drift with a sheet of cardboard or plastic.

To Kill Bamboo

- Cut canes close to the ground.
- Make cut just below a stem joint to create a hollow stem reservoir.
- Pour 1 Tbs of undiluted product into the hollow stem reservoir.
- Browning of the canes will occur in 7-14 days.
- Spray foliage if regrowth occurs.

To Kill Stumps

- Cut living stump close to ground.
- Drive 4 to 5 holes into freshly cut stump.
- Immediately pour undiluted product into holes.

IMPORTANT: Some trees may share the same root system. Adjacent trees having a similar age, height and spacing may signal a shared roots system. Injury may occur to non-treated trees when one or more trees sharing common roots are treated.

For Lawn Replacement: Use Roundup® Weed & Grass Killer Super Concentrate to kill a lawn and weeds before planting a new lawn.

- Skip one mowing before spraying.
- Use 2-1/2 fl oz (5 Tbs) per gallon of water for each 300 sq ft.
- If soil is dry, water before application and 2 to 3 days after application.
- If green patches remain after 7 days, reapply.
- Wait at least 3 days after last application to rake, till or replant with seed or sod.

STORAGE AND DISPOSAL

PESTICIDE STORAGE: Store product in original container in a safe place away from direct sunlight.

PESTICIDE DISPOSAL: Nonrefillable container. Do not reuse or refill this container.
If Empty: Do not reuse this container. Place in trash or offer for recycling if available.
If Partly Filled: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.
