RE: Kate2 Project; DRMS File P-2021-001; Notice of Receipt of Request for Modification (MD2)

Mr. Hoegberg,

DRMS has called your NOI Modification application complete for review. The NOI Modification (MD2) was considered to be submitted for review on September 7, 2021. MD2 consists solely of the relocation of two previously approved borings; 21-21 and 21-23 which will be located on private property as shown on the provided maps, and an updated right of entry from the property owner. No modification to the provided financial warranty already provided will be necessary because no additional boring locations or any other changes in scope of work are proposed in this modification,

In accordance with the provided statement that none of the materials in the NOI are considered confidential by the applicant, the Division posted MD2 on the Office website on September 7, 2021, in accordance with the requirements of Rule 5.1.3.

The Division will conduct its adequacy review of MD2 and will contact you within twenty (20) working days of the posting date (by September 28, 2021) regarding any remaining deficiencies in the application.

If you have any questions, please contact me at (303) 229-9414.

Sincerely,

Eric Scott
Environmental Protection Specialist

CC: Michael Cunningham, DRMS
