RE: Deer Creek Quarry (M1997014) Slope Stability Exhibit

Dear Sir or Madam:

Aggregate Industries-WCR, Inc., is currently obligated to submit a slope stability exhibit to the Division that includes a kinematic analysis (similar to the one completed for Aggregate's Morrison Quarry) for the opened quarry area at the Deer Creek Quarry (M1997014).

On September 3, 2021, Caleb Stock (Project Geotechnical Engineer with Tetra Tech) and I discussed the exhibit request during a phone call with Eric Scott (Environmental Protection Specialist with the Division of Reclamation Mining & Safety). A timeline for Aggregate to submit the exhibit to the Division was reviewed. Mr. Scott agreed to allow Aggregate to submit the exhibit by December 31, 2021. Aggregate also agreed to keep Mr. Scott updated on progress relative to this project at Deer Creek.

If you have any questions, please feel free to contact me at andre.laroche@aggregate-us.com / 719-491-0288 cell.

Best regards,
