To: Jim Stover <jestover@bresnan.net>, Stan Muhr <minrecinc@gmail.com>

Stan and Jim -

Please see attached adequacy letter. There is one item for you guys to take care of before the Division can approve SL-07 for the North Thompson Creek Mine.

Perhaps one of you guys can write a short letter and have a representative of the land company sign it.

Let me know if you have comments or questions.

Thanks,
Rob

Re: North Thompson Creek Mine, Permit C-1981-025
Preliminary Adequacy Review of Bond Release Application No. 7 (SL-07)

Dear Mr. Stover:

Because ponds at the North Thompson Creek Mine are to remain as permanent impoundments, provisions for sound future maintenance by the permittee or landowner must be made, per Rule 3.03.1(3)(c). Please provide to the Division a letter from the landowner, North Thompson – Four Mile Mineral & Land Corporation, stating that they intend to continue to maintain the ponds to prevent pollution of North Thompson Creek in the future.

If you have any questions or comments, please do not hesitate to contact me at Rob.Zuber@state.co.us or 720.601.2276.

Regards,

Robert D. Zuber, P.E.
