Bcc: Stephanie Fancher-English &lt;stephanief@lrmconcrete.com&gt;

Ms. Riesen,

My name is Peter Hays. I am the Environmental Protection Specialist with the Division of Reclamation, Mining and Safety assigned to the Loveland Ready-Mix Concrete, Inc. Dunn Pit application, File No. M-2021-059. The responses to your questions are as follows:

*1) Is there a conduit for me as a Mad Russian Golf Course homeowner to keep abreast and comment directly into the permitting process?*

All application documents are available on the Division's website at: <https://dnrweblink.state.co.us/drms/search.aspx?dbid=0>. Enter the permit number M2021059 in the "Permit No" box on the DRMS Permit Index Template.

All documents will also be available for review at the Weld County Clerk's Office.

You will be allowed to comment during the public comment period. If you are within 200 feet of the affected area, Loveland Ready Mix will send you a notice of the application and comment period. Loveland Ready Mix will also be required to post a notice sign and publish notice of the application in a local newspaper for 4 consecutive weeks.

*2) I have yet to receive any info or maps after the Loveland Ready Mix Sep 6 2021 letter and my inquiries with Stephanie Fancher-English. Can you send maps and applications to me?*

It is my understanding Loveland Ready Mix provided you a copy of the informal neighbor presentation on September 23, 2021. If you have not received the presentation, please contact Loveland Ready Mix.

*3) Can you please send me a direct link to the CDP&W person who handles this application? I do not think CDP&W knows how much wildlife is here.*

The Division will notify CPW of the application once the application is considered complete and filed by the Division. CPW will be allowed to comment on the application during the comment period. The CPW contact information is: Northeast Region Office, 6060 Broadway, Denver, CO 80216, 303.291.7227.

Please contact me if you have any other questions.

Peter S. Hays  
Environmental Protection Specialist
