RE: Arkansas Valley Slag (AVS), File No. M-2021-058, Receipt of Incomplete 112c Application Package

Mr. Slifka:

On August 30, 2021, the Division of Reclamation, Mining and Safety (Division) notified you your application was incomplete for the purpose of filing for a number of reasons. The Division received your response on September 17, 2021. A review of the response determined that the following item must be received before the Division can consider the application complete for the purpose of filing, and technical review can begin:

Exhibit Q Proof of Mailing Notices to Board of County Commissioners

Pursuant to Rule 6.4.17 submit proof that notice of the permit application was sent to the Board of County Commissioners. Pursuant to Rule 1.6.2(1)(a)(ii) proof of notice shall be in the form of a return receipt of a Certified mailing or a date-stamped copy of the notice acknowledging receipt by the appropriate local Board.

You have submitted as proof of notice a copy of a notice letter addressed to the Lake County Board of County Commissioners dated August 17, 2021, but stamped by the Lake County Clerk and Records office on August 16, 2021. This does not qualify as proof the notice was sent to or received by the Board of County Commissioners. If you have not already done so, please provide the required notice of the application to the Lake County Board of County Commissioners. Please submit proof, pursuant to Rule 1.6.2(1)(a)(ii), the notice was sent to the Lake County Board of County Commissioners.

The application cannot be filed until the information listed above is received and found sufficient to begin our review. Please submit necessary documents in order to address the above listed deficiency within sixty days. If, at the end of the sixty day period, the application is still incomplete, the Division may deny the application and terminate the application file.

This letter shall not be construed to mean that there are no other technical deficiencies in your application. Once the application is filed the Division will review the application in order to

determine whether it is adequate to meet the requirements of the Colorado Land Reclamation Act for the Extraction of Construction Materials (Act) and the associated Mineral Rules and Regulations of the Colorado Mined Land Reclamation Board for the Extraction of Construction Materials (Rules).

If you require additional information, or have questions or concerns, please contact me.

Sincerely,

Dustin Czapla
