Mr. Muller:

The Division of Reclamation, Mining and Safety (Division) has completed its review of your Notice of Intent to Conduct Prospecting Operations (NOI) submitted for Wasterock Exploration Core Drilling, File No. P-2021-016. The Division has also reviewed and approved the financial warranty submitted for the NOI in the amount of \$40,300.00. Therefore, final approval of your NOI is hereby granted and you may commence prospecting operations at this time.

In accordance with Rule 5.6, an Annual Report and associated fee of \$86.00 must be submitted on your notice approval anniversary date for each year following the filing of an NOI until reclamation responsibility release is granted by the Division. In addition, Rule 5.3.4 requires the prospector to notify the Division upon completion of the prospecting operations. Such notice shall be sent by certified mail separate from all other correspondences. Rule 5.7 requires the prospector to submit to the Division a final report no later than 60 days after the completion of the abandonment of any drill hole which has artesian flow at the surface, or no later than one year after the completion of the abandonment of any other drill holes.

Please note, the acceptance of this NOI shall not be construed to abrogate the duty of the prospector to comply with other applicable laws or regulations, including but not limited to all federal, state, or local permits, licenses, and approvals, as well as any access agreements, as applicable to the specific operation.
