**Re: Technical Revision Approval, Revision No. TR127
Cresson Project, Permit No. M-1980-244,**

Dear Melissa Harmon:

On October 7, 2021 the Division of Reclamation, Mining and Safety (Division) approved the Technical Revision application submitted to the Division on April 21, 2021, addressing the following:

Monitoring and reporting procedures for the HVSCS, LVSCS, and LDS

The terms of the TR127 approved by the Division are hereby incorporated into Permit No. M-1980-244. All other conditions and requirements of Permit No. M-1980-244 remain in full force and effect.

The Division has reviewed the change associated with TR127 for impacts to the financial warranty and has determined that this change does not require an increase to the current reclamation liability. Therefore, the surplus warranty remains at \$959,887.00, last adjusted with the approval of SA-02 on November 12, 2019.

If you have any questions or need further information, please contact me at (303) 866-3567 x8132.
