

**Proof of Filing with County Clerk**

I, Molly Wild-Johnson the County Clerk for Clear Creek County County;  
have received a complete application package for a Hard Rock/Metal Mining Limited Impact (110)  
Reclamation Permit with the Colorado Mined Land Reclamation Board under provisions of the Colorado Mined  
Land Reclamation Act. The proposed mine is known as the (Name of the Mine) Lombard #3,  
and is located at or near Section 1, Township 3, Range 74W, 6th Principal Meridian.

Molly Wild-Johnson

AB

Hi Jeff -

Please find attached to this email a proof for your review in the matter of:  
**CCC 204 Application Notice**

Please review the attached and let us know if everything appears to be correct. Please reply no later than 3 p.m. on Thursday as this is our deadline. Bobi Lopez no longer works here, so any changes or questions, please reply to this email. There are multiple employees covering this desk, specific contact information is below.

Per our company's publication guidelines, we are requesting that payment be made in advance before your notice can be published in its entirety. You can pay with a credit card by accessing our online payment portal at the following web address:

<https://secure.gomerchant.com/secure/custompayment/cocommmedia/14596/default.aspx>

We accept all major credit cards. You will need the following information to pay via the payment portal:

Total due: \$78.50  
Order No.: 17414  
Advertiser No.: 16973

Description: CCC 204 Application Notice  
Run dates: CCC: 10/13/2021

Please also verify that this mailing address is correct so there are no delays in receiving your affidavit:  
Mountain Property Builders \*\*\*  
15954 JACKSON CRK PKWY #B281  
MONUMENT CO 80132

The best way to reach us is to reply to this email. Specific contacts are:

Patricia "PK" Fearn: 303-566-4103 or via email at pkfearn@coloradocommunitymedia.com  
Carla Bethke: 303-566-4082 or via email at cbethke@coloradocommunitymedia.com  
Audrey Brooks: 303-566-4077 or via email at abrooks@coloradocommunitymedia.com  
Sheree Sandell: 303-566-4088 or via email at ssandell@coloradocommunitymedia.com

After you have made payment, we will publish the notice for the requisite time indicated. Once publication has ended, we will forward a proof of publication to the address provided. Please be aware that this may take seven business days as we use the United States Postal Service to send proofs of publication. Again, please let us know if we may be of further assistance to you. Have a great day and thank you for choosing Colorado Community Media.

### Public Notice

f A Carter 15954 Jackson Ck Pkwy B281  
nument CO 80132 719-237-5914,  
s filed an application for a Hard Rock/Metal

The proposed date of commencement is 6/1/2022 and the proposed date of completion is 5/30/2032. The proposed future use of the land is Forest.

Additional information and tentative decision date may be obtained from the Division of Reclamation, Mining and Safety, 1313 Sherman Street, Room 215, Denver, Colorado 80203, (303) 866-3567, or at the Clear Creek County Clerk and Recorder's office at 405 Argentine St Georgetown CO 80444 or the above-named applicant. A complete copy of the application is available at the above-named County Clerk and Recorder's office and at the Division's office.

Comments concerning the application and exhibits must be in writing and must be received by the Division of Reclamation, Mining, and Safety by 4:00 p.m. 10 days after the posting date .

Please note that under the provisions of C.R.S. 34-32-101 et seq. Comments related to noise, truck traffic, hours of operation, visual impacts, effects on property values and other social or economic concerns are issues not subject to this Office's jurisdiction. These subjects, and similar ones, are typically addressed by your local governments, rather than the Division of Reclamation, Mining, and Safety or the Mined Land Reclamation Board.

**Re: SSG Mining Inc., Lombard #3, File No. M-2020-057, Limited Impact Operation 110(1)  
Reclamation Permit Application Adequacy Review**

Mr. Carter:

The Division of Reclamation, Mining and Safety (Division/DRMS) reviewed the contents of the SSG Mining Inc. permit application for the Lombard #3 site, File No. M-2020-057 and submits the following comments. The Division is required to make an approval or denial decision no later than October 1, 2021 therefore; a response to the following adequacy review concerns should be submitted to the Division as soon as possible.

**The Division recommends the Applicant provides a cover letter and replacement pages in response to the adequacy concerns in this letter instead of resubmitting the entire permit application.**

The review consisted of comparing the application contents with specific requirements of Rules 1, 3, 6.1, 6.2, 6.3 and 6.5 of the Minerals Rules and Regulations of the Colorado Mined Land Reclamation Board for Hard Rock, Metal and Designated Mining Operations. Any inadequacies are identified under the respective exhibit heading along with suggested corrective actions.

#### **1.6 - Public Notice**

1. As required by Rules 1.6.2(d) and 1.6.3(3), please submit proof of publication in a newspaper of general circulation in the locality of the proposed mining operation. **Attached in this resubmittal.**
2. As required by Rule 1.6.2(e), please submit proof of the notice to all owners of record of surface and mineral rights of the affected land and the owners of record of all land surface within 200 feet of the boundary of the affected land including all easement holders located on the affected land and within 200 feet of the boundary of the affected land. Proof of notice may be return receipts of a Certified Mailing or by proof of personal service. **The district ranger has signed off on the Application. This satisfies "Notice to all Owners"**
3. The Division received a comment letter from History Colorado. The letter is attached for review. Please address the comments noted in the letter. **Applicant Agrees to abide by all recommendations.**

#### **6.3 Specific Exhibit Requirements - 110(1) Limited Impact Operations**

The following items must be addressed by the Applicant in order to satisfy the requirements of C.R.S. 34-32-101 et seq. and the Hard Rock Rules and Regulations of the Mined Land Reclamation Board:

### 6.3.1 Exhibit A - Legal Description

4. The main entrance to the mine site shall be located based on a USGS topographic map showing latitude and longitude or Universal Transverse Mercator (UTM). The location the Applicant provided Latitude N 39°49'42.27", Longitude W 105°37'13.38" does not correctly locate the primary mine entrance. Please review the mine entrance location and revise Exhibit A accordingly. **Revised.**
5. The location map provided by the Applicant indicates Cumberland Gulch Road, a pond and a waste rock area. Based on observations from the pre-operational inspection, the location map does not accurately depict the proposed 2 acre mine site. Please provide a revised location map which accurately depicts the location of the proposed mining activity. Please provide a map scale on the revised location map. **Revised "Location" map Included in resubmittal.**

### 6.3.2 Exhibit B - Site Description

6. On Item #5 in Exhibit B, the Applicant indicated there are no streams, springs, lakes, stock pond, ditches, reservoirs, and aquifers that would receive drainage directly from the mine. A pond is indicated on the location map. Please confirm the pond will not receive drainage from the mine adit. **The pond will not receive drainage directly from the mine.**

### 6.3.3 Exhibit C - Mining Plan

7. On Item #10 in Exhibit C, the Applicant states there will be no ore removed from the adit for milling or refining until an ABA test is performed. Please commit to providing a copy of all ABA tests to the Division prior to removal of material from the site. **Applicant commits to providing copies of all ABA tests to the Division prior to the removal from the site**
8. In the approved USFS Plan of Operation (POO), the Applicant states up to 10 tons (of material will be) removed by super sacks or 5 gallon buckets. Please revise the Mining Plan to include the mining description from the POO. **Mining Plan description has been updated.**
9. Please specify the existing dimensions of the Lombard #3 adit and provide the final dimensions of the adit following mining activities. **The mine entrance has not been excavated at this time, therefore existing dimensions are not known. The timbered and gated entrance will be 6'x5' after excavation.**
10. Please specify if the Operator will create additional surface disturbance in support of underground mining activities such as secondary escape ways or ventilation shafts. If additional surface disturbance will be created, then the features must be described in the Mining Plan and Reclamation Plans and must be depicted on the Mining Plan and Reclamation Plan Maps. **No additional will occur under this permit.**
11. Please clarify if the adit is currently accessible. **The adit is not currently accessible.** If not, please describe the work required to open the adit. **A Bobcat E-85 Mini Excavator will be used to excavate the adit.**
12. Pursuant to Rule 3.1.6(1), disturbances to the prevailing hydrologic balance of the affected land and of the surrounding area and to the quantity of quality of water in surface and groundwater systems both during and after mining must be minimized. Please specify if there are any discharges, seasonal or otherwise, coming from the adit. **At this time there are no discharges from the adit.**
13. Please provide a description of the proposed underground mining activities and clarify if the adit will be advanced. **The adit will not be advanced. Ore sample will be gathered and sent to the assay office.**

14. Please specify where waste rock will be stockpiled and depict the stockpile location(s) on the Mining Plan Map. **Map Information added.**
15. Please specify how the adit will be safeguarded from unauthorized entry during active mining operations and during periods of seasonal closures. **The adit will be timbered and gated.**
16. The location map and Reclamation Plan Map indicate an existing waste rock area. Please clarify if the waste rock stockpile will be re-disturbed by the proposed mining activity. **The existing waste rock pile will not be disturbed.**
17. The Mining Plan calls for moving 3-6 feet of overburden. Please clarify if the overburden is to be removed from the surface or from underground. **Surface** In addition, please clarify if the proposed 3-6 feet of overburden is related to the 200 cubic yards of material which is proposed to be backfilled into the adit. **The 3-6 ft of overburden is related to the 75 cubic yards.** If the overburden is separate from the 200 cubic yards of backfill material, then specify the total volume of overburden to be stockpiled and depict the location of the overburden stockpile(s) on the Mining Plan Map.
18. The Division calculated the cost for an independent contractor to reclaim the site based on the information submitted by the Operator in the application at \$25,000.00. **After revisiting the excavation site with mt excavator we have revised the area of disturbance. Please revise the bond calculation.** A copy of the Division's bond estimate is attached for review.

#### **6.3.4 Exhibit D - Reclamation Plan**

19. The Reclamation Plan calls for backfilling the adit after the completion of mining. Please specify the horizontal length of the adit, if known. **Dimensions of the adit at this time are unknown.** The Division will require the Operator to backfill the adit to a minimum depth of 15 feet from the top of the inner fill to the outer top of the fill. **Agreed and understood.** There shall be no spaces between the top of the fill and the roof of the adit that exceed three inches and there shall be no space between the top of the fill and the roof of the adit at the entrance of the adit. Please commit to following these guidelines when backfilling the adit. **Agreed and Understood**
20. Please identify the source of material to be used to backfill the adit and provide an estimate of the average size of rock which will be used for backfill material. **The 75 yards of stockpiled material. The material size should range from dirt to 6".**  
The Reclamation Plan states the final grade of the reclaimed slopes as 180H:180V and the Applicant states the existing grades will be matched. Please verify the existing grades are 1H:1V or revise the Reclamation Plan accordingly. **Revised**

#### **6.3.5 Exhibit E - Maps**

22. The Applicant failed to provide a Mining Plan Map as required by Rule 6.3.5(2). Please provide a Mining Plan Map with the following requirements:
  - a. outline and label the permit boundaries, described in Exhibit A - Legal Description **Added**
  - b. label the names of owner(s) of record of the surface of the affected area and of the land within two hundred (200) feet of the affected area, identify the owner of the substance to be mined, and the type of structure and owners of record of any permanent or man-made structures within two hundred (200) feet of the affected area **There are no man made structures within 200ft of the affected land.**

- c. outline and label all major surface features to be used in connection with the proposed operation such as: existing and proposed roads, pit boundary, topsoil stockpiles, overburden stockpiles, product stockpiles, waste rock fills, stream channels, buildings, processing plant, underground openings such as adits or ventilation facilities, ponds, impoundments, dewatering pumps, diversions, tail or waste disposal areas **Added**
  - d. indicate the direction that mineral extraction will proceed **Added**
  - e. note the location of any significant, valuable, and permanent man-made structures within two hundred (200) feet of the affected area. A narrative description must be provided in Exhibit B - Site Description **There are no structures within 200ft.**
  - f. outline and label existing disturbance within and/or adjacent to the permit boundary (e.g., previously mined areas, roads or excavations resulting from utility construction). Re-disturbance of previously disturbed areas, by the proposed mining operation, must be included in the permit area and addressed in Exhibit D - Reclamation Plan. **Complete. 150 ft from Top Soil Stock pile**
23. Please indicate on the Mining Plan Map where fuel will be stored, if fuel will be stored on-site and provide a description of the spill containment measures. **No Fuel will be stored on site.**
24. The Reclamation Plan Map indicates Cumberland Gulch Road, a pond and an existing waste rock area, an access road and a 0.65 acre permit boundary. Based on observations from the pre-operational inspection, the Reclamation Plan Map does not accurately depict the proposed 2 **The permit boundary has been revised to 0.918 acre mine site.** Please provide a revised Reclamation Plan Map which accurately depicts the reclamation of the proposed mining activity.
25. Please revise the Reclamation Plan map to show the gradient of all reclaimed slopes (horizontal: vertical) sufficient to describe the post mine topography pursuant to Rule 6.3.5(3)(a). **Done**
26. Please update the Reclamation Plan Map to state the average thickness of replaced overburden and topsoil by reclamation area or phase pursuant to Rule 6.3.5(3)(e) and (d). **Done**
27. The U.S. Forest Service has indicated there may be potential bat habitat in the adit which will be opened during the mining operation. Pursuant to Rule 3.1.8, all aspects of the Mining and Reclamation Plans shall take into account the safety and protection of wildlife on the proposed mine site. The presence of bats within the adit may require a modification to the closure plan for the adit. Please commit to notifying the Division and USFS if bats are observed in the adit. **Applicant will notify the Division if any bats are found in the Adit**

#### **6.3.6 Exhibit F - List of Other Permits and Licenses Required**

28. The Applicant failed to provide Exhibit F with the permit application. Please provide a completed copy of Exhibit F - List of Other Permits and Licenses Required. **Added**

**6.3.9 Exhibit I - Proof of Filing with County Clerk**

29. Please provide an affidavit or receipt indicating the date on which the revised application information required to address this adequacy letter was placed with the Clear Creek County Clerk and Recorder for public review, pursuant to Subparagraph 1.6.2(1)(c). **Included**

**6.3.12 Exhibit L - Permanent Man-made Structures**

30. The Applicant failed to provide Exhibit L with the permit application. Please provide a completed copy of Exhibit L - Permanent Man-made Structures. **Exhibit L was included in the last submittal and there are No Man Made Structures within 200 ft of the affected land.**

Please be advised the Lombard #3 site application may be deemed inadequate, and the application may be denied on October 1, 2021, unless the above mentioned adequacy review items are addressed to the satisfaction of the Division. If more time is needed to complete the reply, the Division can grant an extension to the decision date. This will be done upon receipt of a written waiver of the Applicant's right to a decision by October 1, 2021 and a request for additional time. This must be received no later than the deadline date.

If you have any questions, please contact me at peter.hays@state.co.us or (303) 866-3567 Ext. 8124.

Sincerely,

Peter S. Hays

## LIMITED IMPACT OPERATION (110(1)) RECLAMATION PERMIT APPLICATION FORM

CHECK ONE: ☒ New Application

Permit # M- \_\_\_\_\_ - \_\_\_\_\_ (provide for conversions and amendments of existing permits)

The application for a Limited Impact 110(1) Mining Operation Reclamation Permit contains three major parts: (1) the application form; (2) Exhibits A-J, any required sections of Exhibit S and Geotechnical Stability Exhibit, as required by the Office, and outlined in Rules 6.1, 6.2, 6.3, and 6.5; and (3) the application fee. When you submit your application, be sure to include one (1) signed and notarized original and one (1) copy of the application form, two (2) copies of Exhibits A-J, and 6.5 (Geotechnical Stability Exhibit), as required, and a check for the application fee described under (4) below. Exhibits should not be bound or in a 3-ring binder; maps should be folded to 8 1/2" X 11" or 8 1/2" X 14" size. To expedite processing, please provide the information in the format and order described in this form.

### GENERAL OPERATION INFORMATION

Type or print clearly, in the space provided, all information described below

1. Applicant/operator or company name (name to be used on the permit): Jeff A Carter
  - 1.1 Type of organization (corporation, partnership, etc.): Individual
2. Operation name (pit, mine or site name): Lombard #3
3. Permitted acreage (new or existing): (must be 5 acres or less) 0.918 permitted acres
4. Fees:
  - 4.1 New Application \$288.00 application fee
5. Primary commodity(ies) to be mined: Gold & Silver
6. Name of owner to the surface of affected land: US Forest Service
7. Name of owner to the subsurface rights of affected land: US Forest Service
8. Type of mining operation: ☐ Surface ☒ Underground ☐ Placer

9. **Correspondence Information:**

14. If this operation will use designated chemicals, or will result, or presently has acid mine drainage - you cannot use this application form. You must submit either a 110d or 112d application form for Designated Mining Operations. In either case, you must list any acidic or toxic-forming materials, exposed or disturbed as a result of the mining operation, and whether the operation will result in or presently has acid mine drainage:

No Chemicals Used and No acid mine drainage, No water discharging from the Audit

---

---

---

---

15. **Description of Conversion or Amendment:** If you are converting or amending an existing operation, provide a brief narrative describing the proposed change(s):

NONE

---

---

---

16. **Maps & Exhibits:** Submit **two (2) complete, unbound copies** of the following application exhibits:

- 6.3.1 EXHIBIT A - Legal Description and Location Map
  - 6.3.2 EXHIBIT B - Site Description
  - 6.3.3 EXHIBIT C - Mining Plan
  - 6.3.4 EXHIBIT D - Reclamation Plan
  - 6.3.5 EXHIBIT E - Map
  - 6.3.6 EXHIBIT F - List of Other Permits and Licenses Required
  - 6.3.7 EXHIBIT G - Source of Legal Right-to-Enter
  - 6.3.8 EXHIBIT H - Municipalities within a Two-mile Radius
  - 6.3.9 EXHIBIT I - Proof of Filing with County Clerk
  - 6.3.10 EXHIBIT J - Proof of Mailing Notices of Permit Application
  - 6.3.12 EXHIBIT L - Permanent Man-Made Structures
- 6.5 Geotechnical Stability Exhibit (as required)

**Responsibilities as a Permittee:**

Upon application approval and permit issuance, this application becomes a legally binding document. Therefore, there are a number of important requirements which you, as a permittee, should fully understand. These requirements are listed below. Please read and initial each requirement, in the space provided, to acknowledge that you understand your obligations. If you do not understand these obligations then please contact this Office for a full explanation.

jc

1. Your obligation to reclaim the site is not limited to the amount of the financial warranty. You assume legal liability for all reasonable expenses which the Board or the Office may incur to reclaim the affected lands associated with your mining operation in the event your permit is revoked and financial warranty is forfeited;

jc

2. The Board may suspend or revoke this permit, or assess a civil penalty, upon a finding that the permittee violated the terms or conditions of this permit, the Act, the Mineral Rules and Regulations, or that information contained in the application or your permit misrepresent important material facts;

jc

3. If your mining and reclamation operations affect areas beyond the boundaries of an approved permit boundary, substantial civil penalties, to you as permittee can result;

jc

4. Any modification to the approved mining and reclamation plan from those described in your approved application requires you to submit a permit modification and obtain approval from the Board or Office;

jc

5. It is your responsibility to notify the Office of any changes in your address or phone number;

jc

6. Upon permit issuance and prior to beginning on-site mining activity, you must post a sign at the entrance of the mine site, which shall be clearly visible from the access road, with the following information (Rule 3.1.12):

a. the name of the operator;

b. a statement that a reclamation permit for the operation has been issued by the Colorado Mined Land Reclamation Board; and,

c. the permit number.

jc

7. The boundaries of the permit boundary area must be marked by monuments or other markers that are clearly visible and adequate to delineate such boundaries prior to site disturbance;

jc

8. It is a provision of this permit that the operations will be conducted in accordance with the terms and conditions listed in your application, as well as with the provisions of the Act and the Mineral Rules and Regulations in effect at the time the permit is issued.

✓ 9. Annually, on the anniversary date of permit issuance, you must submit an annual fee (\$172), and an annual report which includes a map describing the acreage affected and the acreage reclaimed to date (if there are changes from the previous year), any monitoring required by the Reclamation or Environmental Protection Plans to be submitted annually on the anniversary date of the permit approval. Annual fees are for the previous year a permit is held. For example, a permit with the anniversary date of July 1, 1995, the annual fee is for the period of July 1, 1994 through June 30, 1995. Failure to submit your annual fee and report by the permit anniversary date may result in a civil penalty, revocation of your permit, and forfeiture of your financial warranty. It is your responsibility, as an operator, to continue to pay your annual fee to the Office until the Board releases you from your total reclamation responsibility.

✓ 10. For joint venture/partnership operators: the signing representative is authorized to sign this document and a power of attorney (provided by the partner(s)) authorizing the signature of the representative is attached to this application.

**Certification:**

As an authorized representative of the applicant, I hereby certify that the operation described has met the minimum requirements of the following terms and conditions:

1. All necessary approvals from local government have been applied for (Rule 1.6.2(1) and (2));
2. This entire mining operation will not extract more than 70,000 tons of mineral, overburden, or combination thereof in any calendar year (defined in C.R.S. 34-32-110(2)(a));
3. This mining operation will not adversely affect the stability of any significant, valuable and permanent man-made structure(s) located within two hundred (200) feet of the affected lands. (However, where there is an agreement between the applicant/operator and the persons having an interest in the structure that damage to the structure is to be compensated for by the applicant/operator (Section 34-32-115(4)(d), C.R.S. 1984, as amended), then mining may occur within 200 feet. Proof of an agreement must be submitted to the Office prior to the decision date.)
4. No mining operation will be located on lands where such operations are prohibited by law (Section 34-32-115(4)(f), C.R.S. 1984, as amended);
5. As the applicant/operator, I do not have any mining/prospecting operations in this state of Colorado currently in violation of the provisions of the Mined Land Reclamation Act (Section 34-32-120, C.R.S. 1984, as amended) as determined through a Board finding.
6. I understand that statements in the application are being made under penalty of perjury and that false statements made herein are punishable as a Class 1 misdemeanor pursuant to Section 18-6-503, C.R.S. 1984, as amended.

*This form has been approved by the Mined Land Reclamation Board pursuant to section 34-32-110(1), C.R.S., of the Mined Land Reclamation Act. Any alteration or modification of this form shall result in voiding any permit issued on the altered or modified form and subject the operator to cease and desist orders and civil penalties for operating without a permit pursuant to section 34-32-123, C.R.S.*

Signed and dated this 10<sup>th</sup> day of November, 2020.

**EXHIBIT B – Site Description**  
**Rule 6.3.2 (Starts on Page 135 of the Rules)**

**1) Primary present land use (check one):**

- |   |   |   |
|---|---|---|
| <input type="checkbox"/> Cropland (CR)    | <input type="checkbox"/> Pastureland (PL)         | <input type="checkbox"/> General Agriculture (GA)   |
| <input type="checkbox"/> Rangeland (RL)   | <input checked="" type="checkbox"/> Forestry (FR) | <input type="checkbox"/> Wildlife Habitat (WL)      |
| <input type="checkbox"/> Residential (RS) | <input type="checkbox"/> Recreation (RC)          | <input type="checkbox"/> Industrial/Commercial (IC) |

Additional Land use information:

---

---

**2) Current vegetative cover (check all that apply):**

- |   |   |  |
|---|---|--|
| <input checked="" type="checkbox"/> Grasses | <input checked="" type="checkbox"/> Trees | <input type="checkbox"/> No vegetative cover |
| <input type="checkbox"/> Shrubs             | <input type="checkbox"/> Pasture          | <input type="checkbox"/> Other: _____        |

Additional vegetation information:

---

---

**3) Current Soil Characteristics:**

2"-6" loose topsoil

---

---

*(This information is publically available and free. It may be obtained through the local office of the Natural Resource Conservation Service)*

**4) Are there any permanent manmade structures (homes, roads, bridges, power lines, fences, etc.) located within two hundred (200) feet of the mine boundary: ( ☐ ) Yes or ( ☒ ) No**

If yes, please identify the type of structure and the structure owner:

Structure: _____	Owner: _____
Structure: _____	Owner: _____
Structure: _____	Owner: _____
Structure: _____	Owner: _____

**5) Are there any streams, springs, lakes, stock water ponds, ditches, reservoirs, and aquifers that would receive drainage directly from the mine: ( ☒ ) Yes or ( ☐ ) No**

If yes, please describe the water features:

~~There is a seasonal pond and stream on the left side of the Cumberland gulch Forest services Rd~~

---

---

**6) (Optional) Please provide a Wildlife Statement prepared by the Colorado Parks and Wildlife.**

Additional site description information:

There are no structures or utilities at this site

---

---

---

**EXHIBIT C - Mining Plan**  
**Rule 6.3.3 (Starts on Page 136 of the Rules)**

The purpose of the mining plan is to describe how mining will affect the permit area through duration of the operation. The plan must be correlated to Exhibit E – Map.

- 1) Estimated dates of commencement: 1/1/2021 and completion: 1/1/2121
- 2) How many years is the mine anticipated to be operational: 100 years
- 3) Will mining activities occur all-yearlong or just seasonally when weather permits (check one):  
(☐) all-yearlong or (☒) seasonally, explain: Access will be available when snow has melted
- 4) How many aces of the mine site will be disturbed at any given time: 0.918 acres
- 5) Depth of topsoil to be salvaged (only for surface disturbances) (check one):  
☒ 4-6 inches      ☐ 6-8 inches  
☐ 8-10 inches      ☐ 10-12 inches  
☐ Other: \_\_\_\_\_  
☐ N/A, explain: \_\_\_\_\_
- 6) Will you need to move any overburden (check one): (☒) Yes or (☐) No
  - a. If yes, approximately how thick is the overburden? 3ft-6ft feet
- 7) How will the mine be accessed: (☒) existing roads (☐) new roads will be created  
Please describe the existing roads:  
Existing Forest Service Roads  
\_\_\_\_\_  
  - a. If there will be new roads or road improvements, please describe the new roads and road improvements:  
No new roads  
\_\_\_\_\_
- 8) Will water be needed during the mining operation (check one): (☐) Yes or (☒) No
  - a. If yes, please describe the source of the water and how much water will be used during the operation:  
\_\_\_\_\_  
\_\_\_\_\_
- 9) Will any water diversions or impoundments be constructed (check one): (☐) Yes or (☒) No
  - a. If yes, please describe the water diversions or impoundments:  
\_\_\_\_\_  
\_\_\_\_\_
- 10) Will any chemicals be used during the mining process (check one): (☐) Yes or (☒) No
  - a. If yes, please describe the chemical types and quantities to be utilized, chemical storage and spill containment and emergency response plans for on-site spills. Plant operation details should include tank capacities and operating solution volumes:  
There will be no ore removed from the adit for milling or refining until until an ABA test is performed and a proper mining permit is issued by the DRMS.  
\_\_\_\_\_  
\_\_\_\_\_

11) Will the deposit/ore be processed on-site (check one): (☐) Yes or (☒) No

a. If yes, please describe how the deposit/ore will be processed on site:

---

---

12) Will explosives be used at any point in your mining operation (check one): (☐) Yes or (☒) No

13) Please identify the primary and secondary commodities to be mined:

Gold & Silver; Up to 10 tons will be removed super sacks or 5 gallon buckets.

---

14) Type of mining operation (check one): ☐ Surface ☒ Underground ☐ Placer

15) How will earthmoving be conducted:

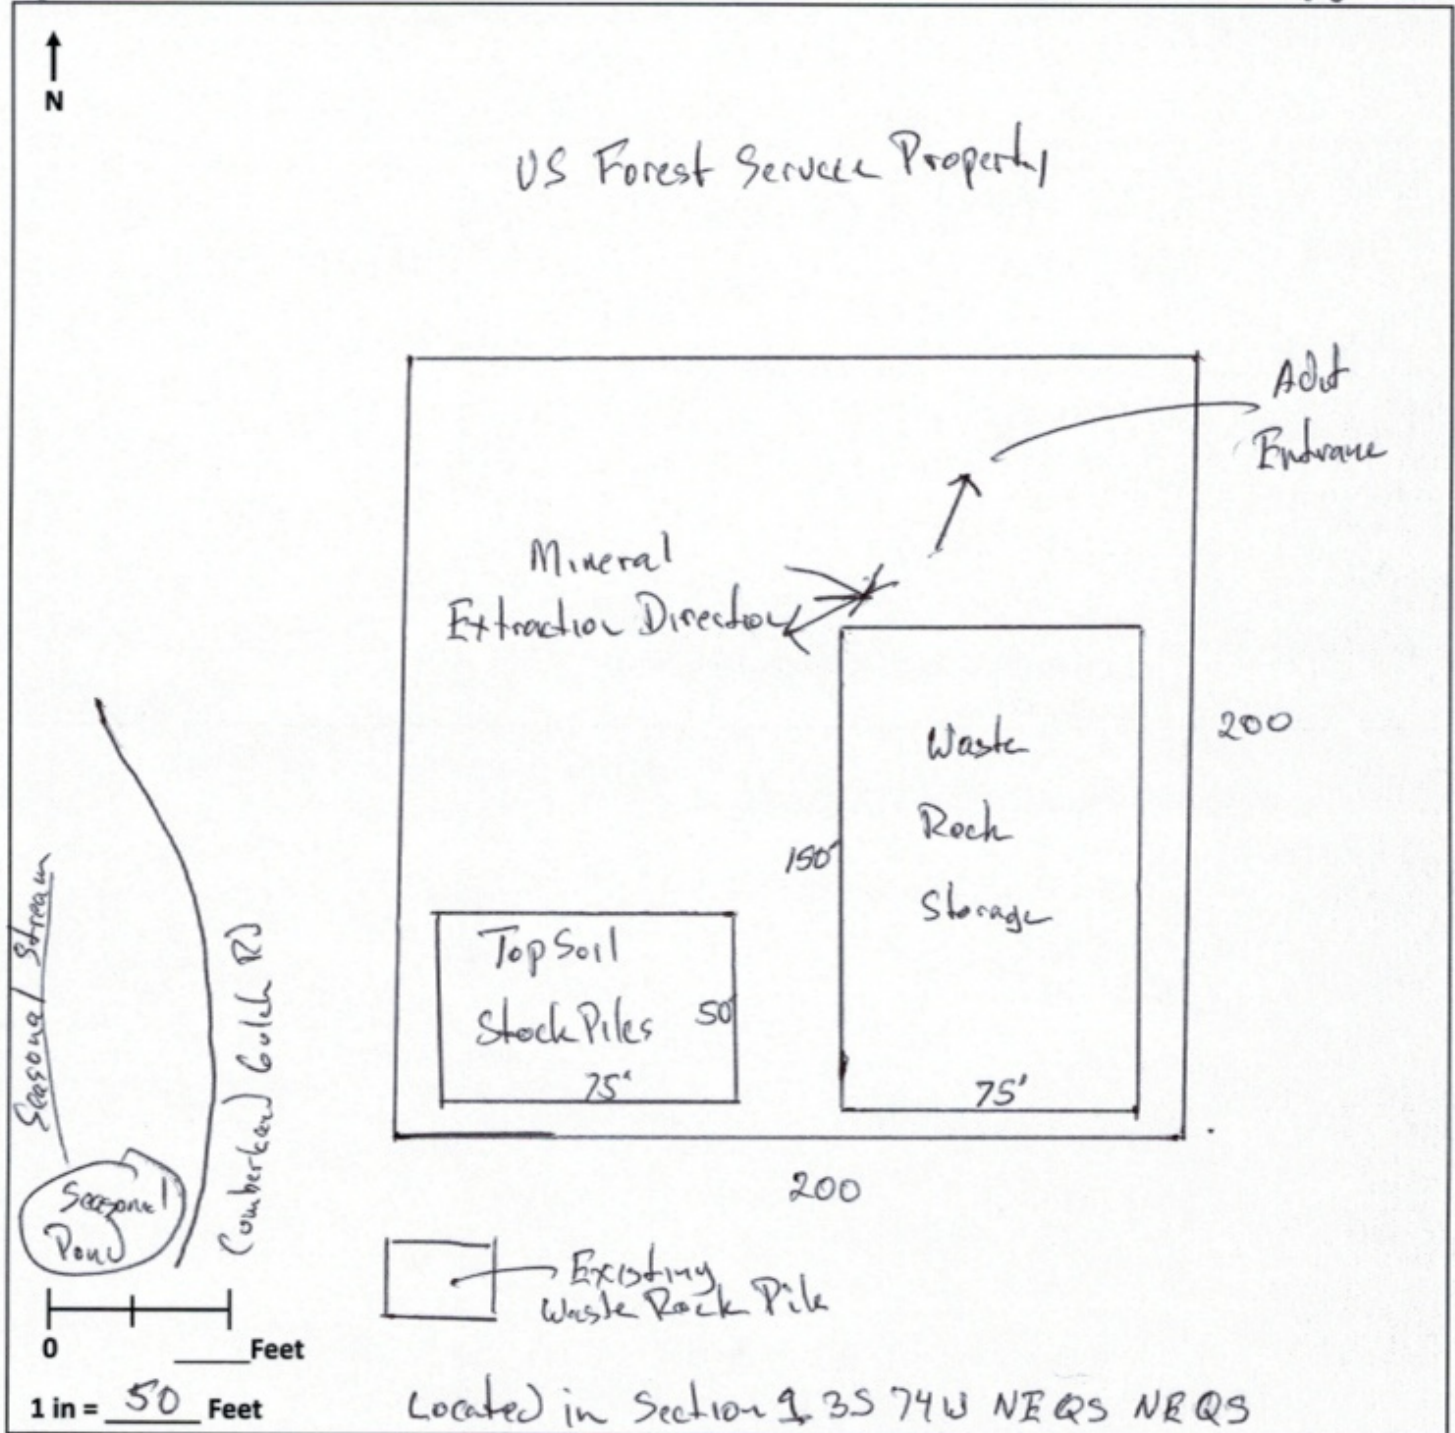

Heavy equipment	( <input checked="" type="checkbox"/> ) Yes or ( <input type="checkbox"/> ) No
Hand tools	( <input checked="" type="checkbox"/> ) Yes or ( <input type="checkbox"/> ) No

MINE PLAN MAP  
(Optional template)

Operator Name: Jeff Carter

Site Name: Lombard #3

Signature

Date 10/1/2021

**16) Please provide an estimate of the actual costs to reclaim the site based on what it would cost the State of Colorado using an independent contractor to complete reclamation. The Office adds up to an additional maximum eighteen and one half (18.5%) percent of that total, which includes a private contract, typical overhead costs and profit.**

Direct Cost:

- i. Backfilling: 75 (cubic yards) X \$ 5 (cost per yard) = Total \$ 375.
- ii. Grading: 50 (cubic yards) X \$ 7 (cost per yard) = Total \$ 350.
- iii. Topsoil: 25 (cubic yards) X \$ 10 (cost per yard) = Total \$ 250.
- iv. Seeding: 1 (acres) X \$ 500 (cost per acre) = Total \$ 500.
- v. Mobilization: 1 (Pieces of equipment) X \$ 1000 (cost per equipment) =  
Total \$ 1000.

Direct Cost Subtotal: \$ 2475.

Division's total overhead cost: X 18.5%

Division's Total cost: \$ 2,940.00.

Note: Based on the Division's experience the required financial warranty is normally set at approximately \$2,500 per acre. Therefore, a typical 5 acre permit will have a total required financial warranty in the amount of \$12,500.

This image shows a full page of blank, lined paper. The paper is white and features evenly spaced, light blue or grey horizontal lines running across its entire width. There are no margins, text, or other markings on the page.

**EXHIBIT D - Reclamation Plan**  
**Rule 6.3.4 (Starts on Page 139 of the Rules)**

The purpose of the Reclamation Plan is to describe the timing, procedures, criteria and materials that will be used to reclaim the affected land to the proposed post-mining land use. Reclamation is required for all affected lands. This plan must be correlated to Exhibit E - Map.

**1) Primary future (Post-mining) land use (check one):**

- |   |   |   |
|---|---|---|
| <input type="checkbox"/> Cropland (CR)    | <input type="checkbox"/> Pastureland (PL)         | <input type="checkbox"/> General Agriculture (GA)   |
| <input type="checkbox"/> Rangeland (RL)   | <input checked="" type="checkbox"/> Forestry (FR) | <input type="checkbox"/> Wildlife Habitat (WL)      |
| <input type="checkbox"/> Residential (RS) | <input type="checkbox"/> Recreation (RC)          | <input type="checkbox"/> Industrial/Commercial (IC) |

**2) Please provide a general description of how the mined area will be Reclaimed:**

Waste rock will be removed and original grade reestablished

---

---

---

**3) What will the final grade of the reclaimed slopes (Horizontal:Vertical):** 1.0 H: 1.0 V

(Note: If the Applicant proposes slopes steeper than 3H: 1V (example 1H:1V, 2H: 1V, etc.), please include a justification:

We will match existing grades

---

---

**a. Please provide a general description of the backfilling and grading:**

regrade to existing slope

---

---

**4) Depth of topsoil to be salvaged (only for surface disturbances) (check one):**

- |  |                                       |
|--|---------------------------------------|
| <input checked="" type="checkbox"/> 4-6 inches | <input type="checkbox"/> 6-8 inches   |
| <input type="checkbox"/> 8-10 inches           | <input type="checkbox"/> 10-12 inches |
| <input type="checkbox"/> Other: _____          |                                       |
| <input type="checkbox"/> N/A, explain: _____   |                                       |
- 
-

- 5) Please provide a seed mix recommendation from the local office of the Natural Resource Conservation Service, United States Forest Service, Bureau of Land Management or pick a seed mix from the following list that best represents the climate zone at the mine (check one):

a. ☐ Zone 1, Eastern Plains

**Site Description:** The elevation of the plains is 6,000 feet or below. The general region is the Front Range, surrounding Denver Metro area and the Eastern Plains. Annual precipitation generally 12-18 inches per year. The average annual high temperature is 69°F with average annual low temperature of 37°F.

Seed Mix	Common Name	Scientific Name	Application Rate PLS (pounds of pure live seed per acre for Drill seeding. Double rate for broadcast seeding
Grasses	Sideoats Grama	<i>Bouteloua curtipendula</i>	1.8
	Buffalograss	<i>Buchloe dactyloides</i>	6.25
	Western Wheatgrass	<i>Pascoprum smithii</i>	2.76
	Blue Grama	<i>Bouteloua gracilis</i>	0.49
	Green Needlegrass	<i>Stipa viridula</i>	1.44
	Little Bluestem	<i>Schizachyrium scoparium</i>	1.16
Forbs	Upright prairie coneflower	<i>Ratibida columnifera</i>	0.25

b. ☐ **Zone 2, Foothills (Lower Montane)**

**Site Description:** The elevation of the foothills ranges from 6,000 to 7,500 feet. The general region is the transition zone between the plains and the montane. Annual precipitation ranges from 12 to 18 inches per year. The average annual high temperature is 60°F with average annual low temperature of 29°F.

Seed Mix	Common Name	Scientific Name	Application Rate PLS (pounds of pure live seed per acre for Drill seeding. Double rate for broadcast seeding
Grasses	Blue Grama	<i>Bouteloua gracilis</i>	0.49
	Needle and thread	<i>Hesperostipa comata</i>	2.3
	western Wheatgrass	<i>Pascorum smithii</i>	2.76
	Little Bluestem	<i>Schizachyrium scoparium</i>	1.54
	Indian Ricegrass	<i>Oryzopsis hymenoides</i>	1.38
Forbs	Palmer's penstemon	<i>Penstemon palmeri</i>	.2

c. ☐ **Zone 3, Pinyon-Juniper (Sagebrush Steppe, Western Plateau)**

**Site Description:** The elevation of the foothills ranges from 6,000 to 7,500 feet. The general region is the transition zone between the plains and the montane. Annual precipitation average is around 9 inches per year. The average annual high temperature is 65°F with average annual low temperature of 40°F.

Seed Mix	Common Name	Scientific Name	Application Rate PLS (pounds of pure live seed per acre for Drill seeding. Double rate for broadcast seeding
Grasses	Indian Ricegrass	<i>Acnatherum hymenoides</i>	1.85
	Western Wheatgrass	<i>Pascopyrum smithii</i>	2.76
	Needle and thread	<i>Hilaria jamesii</i>	3.03
	Galleta	<i>Elymus elymoides</i>	2.19
	Basin wild rye	<i>Leymus cinereus</i>	3.03
Forbs	Scarlett globemallow	<i>Sphaeralcea coccinea</i>	0.25

d. ☐ **Zone 4, Montane**

**Site Description:** The elevation of the Montane zone ranges from 7,500 to 9,300 feet. The general areas include the mountain resort towns and surrounding areas such as Georgetown, Steamboat Springs, Pagosa Springs, Crested Butte, Etc. Annual precipitation ranges from 18 to 60 inches per year. The average annual high temperature is 54°F with an average annual low temperature of 25°F.

Type	Common Name	Scientific Name	Application Rate PLS (pounds of pure live seed per acre for Drill seeding. Double rate for broadcast seeding
Grasses	Mountain brome	<i>Bromus carinatus</i>	1.93
	Bluebunch wheatgrass	<i>Psuedoroegneria spicata</i>	3.71
	Idaho fescue	<i>Festuca idahoensis</i>	0.79
	Prarie junegrass	<i>Koeleria macrantha</i>	0.15
	Sandberg bluegrass	<i>Poa secunda</i>	0.37
Forbs	Common yarrow	<i>Achillea millenfolium</i>	0.25

e. ☒ **Zone 5, Sub-Alpine**

**Site Description:** The elevation of the Sub-Alpine zone ranges from 9,300 to 11,400 feet. The general areas include but are not limited to Lake County, Summit County and areas adjacent to the Continental Divide. Annual precipitation is 40 inches per year and above. Average annual high temperature is 49° with average annual low temperature of 21°F.

Seed Mix	Species	Scientific Name	Application Rate PLS (pounds of pure live seed per acre for Drill seeding. Double rate for broadcast seeding
Grasses	Mountain muhly	<i>Muhlenbergia montana</i>	0.23
	Parry's oatgrass	<i>Danthonia parryi</i>	2
	Prairie junegrass	<i>Koeleria macrantha</i>	0.15
	Elk sedge	<i>Carex geeyeri</i>	2.9
	Idaho fescue	<i>Festuca idahonesis</i>	0.8
Forbs	Lambert's locoweed	<i>Oxytropis lambertii</i>	0.25

f. ☐ Zone 6, Alpine

**Site Description:** The elevation of the Alpine zone range is 11,400 feet and above. The general area includes all areas above timberline. Annual precipitation ranges from 20 to 25 inches per year. Average annual high temperature is 52°F and an average annual low temperature of 18°F.

Seed Mix	Species	Scientific Name	Application Rate PLS (pounds of pure live seed per acre for Drill seeding. Double rate for broadcast seeding
Grasses	Tufted hairgrass	<i>Deschampsia cespitosa</i>	0.4
	Alpine bluegrass	<i>Poa alpine</i>	0.4
	Spike trisetum	<i>Trisetum spicatum</i>	0.17
	Alpine timothy	<i>Phleum alpinum</i>	0.35

6) How will the selected seed mixture be seeded (check one):

- ☐ Drilled                      ☒ Broadcast  
☐ Hydroseeded              ☐ Aerial seeded  
☐ Other: \_\_\_\_\_

Note: Application rates need to be doubled for hydroseeding, aerial and broadcast seeding.

7) Will trees be planted as a part of the reclamation plan (check one): (☒) Yes (☐) No

a. If yes, please list the species: Native

8) Will Shrubs be planted as a part of the reclamation plan (check one): (☐) Yes (☒) No

a. If yes, please list the species: \_\_\_\_\_

9) Will mulch be used (check one): (☐) Yes (☒) No

a. If yes, what kind will be used: \_\_\_\_\_  
 Crimping method: \_\_\_\_\_  
 Application Rate: \_\_\_\_\_

10) Will Fertilizer be used (check one): (☐) Yes (☒) No

a. If yes, what kind will be used: \_\_\_\_\_  
 Application method: \_\_\_\_\_  
 Application Rate: \_\_\_\_\_

This image shows a single sheet of white paper with horizontal blue ruling lines. The lines are evenly spaced and run across the width of the page. There is no handwriting or other markings on the paper.

**4) If the mining operation is located on private, state, or state sovereign lands, please provide a description of the basis for legal right of entry to the site and to conduct mining and reclamation for Owners of Record described in Rule 1.6.2(1)(e)(i). This may be a copy of access lease, deed, abstract of title, or a current tax receipt. A signed statement by the Landowner(s) and acknowledged by a Notary Public stating that the Operator/Applicant has legal right to enter and is also acceptable.**

An example Structure Agreement which meets the requirements of the Statutes is shown below.  
\*\*\*\*\*

**Exhibit G**  
**Structure Agreement**

This letter has been provided to you as the owner of a structure on or within two hundred (200) feet of a proposed mine site. The State of Colorado, Division of Reclamation, Mining and Safety ("Division") requires that where a mining operation will adversely affect the stability of any significant, valuable and permanent man-made structure located within two hundred (200) feet of the affected land, the Applicant shall either:

- a) Provide a notarized agreement between the Applicant and the Person(s) having an interest in the structure, that the Applicant is to provide compensation for any damage to the structure; or
- b) Where such an agreement cannot be reached, the Applicant shall provide an appropriate engineering evaluation that demonstrates that such structure shall not be damaged by activities occurring at the mining operation; or
- c) Where such structure is a utility, the Applicant may supply a notarized letter, on utility letterhead, from the owner(s) of the utility that the mining and reclamation activities, as proposed, will have "no negative effect" on their utility. ( *Construction Materials Rule 6.3.12 and Rule 6.4.19 & Hard Rock/Metal Mining Rule 6.3.12 and Rule 6.4.20*)

*The Colorado Mined Land Reclamation Board ("Board") has determined that this form, if properly executed, represents an agreement that complies with Construction Materials Rule 6.3.12(a), Rule 6.4.19(a), and C.R.S. § 34-32.5-115(4)(e) and with Hard Rock/Metal Mining Rule 6.3.12(a), Rule 6.4.20(a), and C.R.S. § 34-32-115(4)(d). This form is for the sole purpose of ensuring compliance with the Rules and Regulations and shall not make the Board or Division a necessary party to any private civil lawsuit to enforce the terms of the agreement or create any enforcement obligations in the Board or the Division.*

**The following structures are located on or within 200 feet of the proposed affected area:**

- 1. None
- 2. \_\_\_\_\_
- 3. \_\_\_\_\_
- 4. \_\_\_\_\_
- 5. \_\_\_\_\_

*(Please list additional structures on a separate page)*

**EXHIBIT H - Municipalities within a Two Mile Radius**  
**Rule 6.3.8 (Starts on Page 143 of the Rules)**

- 1) Please list all municipalities (mailing address and telephone of the governing body) located within a two mile radius of the mine:

Municipality: None

Address: \_\_\_\_\_

Telephone: \_\_\_\_\_

Municipality: \_\_\_\_\_

Address: \_\_\_\_\_

Telephone: \_\_\_\_\_
