Re: Tucson South Resource – File No. M-2004-044, Aggregate Industries – WCR, Inc. Amendment Application (AM-2) (HC#75298)

Dear Mr. Lennberg:

Thank you for your correspondence on September 28, 2021 initiating consultation with our office in accordance with the Colorado State Register Act - Colorado Revised Statute (CRS) 24-80.1 et. seq.

A search of our database indicates that four sites are located within or adjacent to the permit area. One site, the historic Randall Farm (5AM.3723), was determined to need additional data prior to determine the property's eligibility for listing on the National Register of Historic Places (NRHP). In addition, three sites (5AM.371.1, 5AM.625, 5AM.3698) were determined officially not eligible for listing on the NRHP. As there are no properties of historical significance included or nominated for inclusion to the state register within the proposed permit area, a finding of no adverse effect is appropriate.

As most of Colorado has not been inventoried for cultural resources, our files contain incomplete information. Consequently, there is the possibility that as yet unidentified cultural resources exist within the proposed permit area. The requirements under CRS 24-80 part 13 apply and must be followed if human remains are discovered during ground disturbing activities.

Thank you for the opportunity to comment. If we may be of further assistance, please contact Holly McKee-Huth, Cultural Resource Information/Section 106 Compliance at (303) 866-4670/[holly.mckee@state.co.us](mailto:holly.mckee@state.co.us).

Sincerely,

Holly Kathryn Norton, Ph.D.  
Deputy State Historic Preservation Officer
