**Re: Albert Frei & Sons, Inc.; Walstrum Quarry; File No. M-1983-033;  
112c Permit Amendment Application (AM-09) Third Adequacy Review**

Mr. Bolduc,

The Division of Reclamation, Mining and Safety (Division/DRMS/Office) reviewed the contents of the adequacy response received on September 16, 2021 for the Albert Frei & Sons, Inc. (Frei) 112c permit amendment application (AM-09) for the Walstrum Quarry, File No. M-1983-033 and submits the following comments. The Division is required to issue a recommendation to the Board no later than October 29, 2021, since a timely objection was received by the Office. Therefore, a response to the following adequacy review concerns should be submitted to the Division as soon as possible.

**Exhibit F - Reclamation Plan Map**

1. The Exhibit F-1 - Reclamation Plan Map indicates cross-sections A/F-3, B/F-3, C/F-3 and D/F-3 are shown of Map F-3. The Division did not receive a copy of Exhibit F-3. The Division believes the Applicant is referring to Exhibit F-2 - Reclamation Details Map. Please review the cross-section references on Exhibit F-1 and revise the map accordingly.
2. On Exhibit F-2 - Reclamation Details Map, cross-sections B and D do not indicate the proposed final reservoir slopes of no steeper than 2H:1V except from 5 feet above to 10 feet below the expected water line where slopes shall be not steeper than 3H:1V pursuant to Rule 3.1.5(7). Please update the Exhibit F-2 map accordingly.
3. Please provide an affidavit or receipt indicating the date on which the revised amendment application information required to address this adequacy letter was placed with the Clear Creek County Clerk and Recorder for public review, pursuant to Subparagraph 1.6.2(1)(c).

Please be advised the Walstrum Quarry amendment application may be deemed inadequate, and the amendment application may be denied on November 17, 2021, unless the above mentioned adequacy review items are addressed to the satisfaction of the Division. If more

time is needed to complete the reply, the Division can grant an extension to the decision date. This will be done upon receipt of a written waiver of the Operator's right to a decision by November 17, 2021 and request for additional time. This must be received no later than the deadline date.
