

MINING PLAN

- 1) Mining will occur in creek bed and expand outward toward pit boundaries.
- 2) Topsoil outside of creek will be stripped and stockpiled for re-application.
- 3) Stockpile will be seeded

SE 1/4 Sec. 21, T7N, R43W

- 4) Mining will occur up to 20' deep
- 5) Final slopes on areas outside streambed will be 3:1, streambanks 2:1
- 6) Mining will not occur in groundwater
