

This aerial map illustrates a mining operation with several distinct phases and infrastructure elements. The site is bounded by a dashed blue line labeled "PROPERTY LINE". Key features include:

- Infrastructure:** "G ROAD" is shown at the top left. An "ACCESS ROAD" leads to a "SHOP" and a "SHOP AREA". An "ASPHALT PLANT" and "SETTLING PONDS" are located near the center-right.
- Mining Phases:** The site is divided into six phases:
 - PHASE I:** Located in the upper right, containing "STOCKPILES (TYP.)".
 - PHASE II:** Located in the center, containing a large rectangular area.
 - PHASE III:** Located in the lower center.
 - PHASE IV:** Located on the left side.
 - PHASE V:** Located in the lower right.
 - PHASE VI:** Located in the lower left.
- Water Features:** A "CANAL SIPHON" runs vertically on the left. A "GHA LATERAL" runs horizontally across the lower middle. A "GHCLATERAL" runs diagonally in the bottom left corner.
- Other Labels:** "MINED 2018-2019" and "MINED 2019-2020" are labeled with arrows pointing to specific areas. Multiple "BOUNDARY" lines are indicated with dashed blue and green lines.

A map of Delta, California, showing the City of Delta and the Site Location. The City of Delta is outlined in black and labeled "CITY OF DELTA". The Site Location is marked with a red rectangle and labeled "SITE LOCATION". The map shows the Delta River and surrounding agricultural fields.
