Good morning Mr. Lennberg,

Earlier today we discussed a modification to the TR allowing us to retain the wildlife island and revise the approved seed mix. We would like you to remove from the TR our request to leave the wildlife island as part of the post mining land use. We want to retain the part of the TR which addressed the revised seed mix. We will submit another TR to address the wildlife island.

In summary, at the request of the land owner, we plan to remove the wildlife island to increase the over all storage capacity of the reservoir.

Please let me know if you have any questions.

thanks

for Castle Concrete/Continental Materials Corp.
