Subject:

File #M1976007 – Denver Brick Company Proposal to Convert to 110c to 112c Permit

To Whom It May Concern:

We completely object to the mining application referenced above and we request that the application be denied by the DRMS Board. The reason we oppose this is because the southern parcel of land for the mine expansion in question is currently zoned as JeffCo A-2. This zoning does not allow for mining.

Because this application violates the zoning permissions, we ask that you deny this application.

Thank you,

Erin & Nate Snodgrass
