I am a homeowner and Golden resident who would like to voice my objection to the expansion of the Acme Brick clay mine. Golden is known for its natural beauty and outdoor space. Outdoor activities and views are a primary reason people live in or visit the area. Allowing a 10-fold expansion of the mine will not only adversely affect the abundant wildlife in the area, but it will also greatly degrade the natural beauty. The negative impact to not only the surrounding homeowners, but to visitors to the area, cannot be undone. This expansion would have a detrimental impact on the local economy as well as property values.

One business's desire to expand should not be allowed to impact thousands of local residents and visitors.

This proposed mine expansion should not be allowed.

I can be reached at 303-524-4652 or river.kristi@gmail.com.

Thank you for your consideration.
