Dear Mr. Schnabel:

On November 16, 2021, the Division of Reclamation, Mining and Safety (Division) received your groundwater monitoring data for 2021. Upon review of the submitted materials the Division has questions that require additional clarification.

1. On Figure 2, why is there no monitoring data for parts of 2021 for MW-8?
2. On Figure 3, why is there no monitoring data for parts of 2021 for MW-101?
3. On Figure 4, why is there no monitoring data for parts of 2021 for wells; MW-13R, -14, -14R, and -15?
4. On Figure G-2, why is there no monitoring data for parts of 2021 for wells; MW-4, -8 and MW-105?

Please respond within 30 days of the date on this letter, December 16, 2021.
