Re: Bennett's Gravel Pit, Permit M-1979-166, Receipt of Corrective Action Documentation

Dear Mr. Mueller:

The Division received your response to a Compliance Problem cited in the Division's report from the inspection that was conducted on August 17, 2021. The status of the corrective action in regard to the cited problem is as follows:

Compliance Problem, General Compliance: Storage of vehicles and equipment that is not included in the cost estimate for site reclamation.

This problem is considered to be resolved as a result of a letter from the operator's consultant, Lewicki & Associates (dated November 9, 2021), which illustrates that the vehicles and equipment are not within the permit boundary.

If you have any questions, please contact me at Rob.Zuber@state.co.us or by calling (720) 601-2276.

Thank you,

Robert D. Zuber, P.E.
Environmental Protection Specialist II
