Good Morning,

The Division received proof of work completed at the site to address two of the three problems cited at the Pino Pit (M2000-118) in the 10/12/21 inspection report. Please use this email as proof the Division has abated the problems of improperly impounding water, and trash disposal at the site. The operator is still working towards abating the problem for noxious weeds.

Please let me know if you have any questions.

Thank you,
Patrick
