RE: McClane Canyon Mine, C-1980-004
2nd Quarter 2021 Discharge Monitoring Reports Review (CO-0038342)

Dear Mr. Stover,

The Colorado Division of Reclamation, Mining and Safety (the Division) has finished reviewing the 2021 2nd Quarter Discharge Monitoring Reports for the McClane Canyon Mine. The reports were received electronically on May 14, 2021 (April report), June 2, 2021 (May report) and July 5, 2021 (June and quarterly reports). The reports cover the time period of April 1, 2021 through June 30, 2021. The Division finds the reports to be in compliance with Rule 4.05.13(2).

There are three outfalls associated with the CO-0038342 DMR permit, Outfall 001, Outfall 002 and Outfall 004. During the months of April, May and June, there was no discharge recorded from outfalls 001, 002 and 004. Therefore, no exceedances occurred.

This concludes the Division's review of the 2nd Quarter 2021 Discharge Monitoring Reports for the McClane Canyon Mine. If you have any questions or concerns, feel free to contact me.

Sincerely,

Clayton Wein
