**Re: Receipt of Schist Island Backfill Weekly Reports 11 & 12
Cresson Project, Permit No. M-1980-244**

Dear Melissa Harmon,

On November 24, 2021, the Division of Reclamation, Mining and Safety received the Schist Island Backfill Weekly Report for Week 11. This report covers backfilling activities from November 13th to November 19th, however, the Week 10 Report covered activities from October 30th to November 5th. It appears Week 11 needs to reflect the period November 6th to November 12th. Please provide a revised Week 11 Report covering backfilling activities from November 6th to November 12th.

Additionally, on December 2, 2021, the Division received the Schist Island Backfill Weekly Report for Week 12, covering November 13th to November 19th. This report is the same report submitted on November 24, 2021 discussed above. Within this report, the table which shows Newfields Personnel Onsite is for November 6th to November 12th. Please provide a revised Week 12 Report with a corrected Newfields Personnel Onsite table showing the personnel onsite from November 13th to November 19th.

If you have any questions or need further information, please contact me at (303) 866-3567 x8132.

Sincerely,

Elliott R. Russell
Environmental Protection Specialist
