Re: Letter of Groundwater Monitoring Compliance 2021, Asphalt Specialties Co., Inc. Groundwater Monitoring; Speer Mining Resource, Permit No. M-1983-176

Dear Mr. Geras:

On December 14, 2021, the Division of Reclamation, Mining and Safety (DRMS) received your responses to the Division's request to provide additional groundwater monitoring information for 2021. Upon review of the responses the Division has no additional requests for information on the report. To clarify the Technical Revision referenced, TR-1, was submitted as TR-1 in 2014 but was actually TR-2. TR-1 was submitted and approved in 1985. TR-2 was submitted and approved in 2014.

Please note that groundwater level monitoring data are to be submitted yearly with the annual report, map and fee in accordance with the commitments made in AM-4 and TR-2.

If you need additional information or have any questions, please contact me at Division of Reclamation, Mining and Safety, 1313 Sherman Street, Room 215, Denver, CO 80203, by telephone at **303-866-3567 x8114**, or by email at patrick.lennberg@state.co.us.

Sincerely,

Patrick Lennberg
Environmental Protection Specialist
