NA - Subsidence
NA - Slides and Other Damage
N - Support Facilities On-site
Y - Signs and Markers
N - Support Facilities Not On-site
N - Special Categories Of Mining
N - Topsoil

COMMENTS

This was a partial inspection of the Hayden Gulch Loadout; DRMS Permit No. C-1992-081, operated by Hayden Gulch Terminal, LLC. This inspection was conducted by Tabetha Lynch with the Colorado Division of Reclamation, Mining, and Safety (Division). No activity was occurring on site at the time of inspection.

Permit Revision No. 2 (PR-2) and Bond Release No.2 (SL-2) are currently under review by the Division. PR-2 proposes to modify the approved reclamation plan and post-mining land use for the major portion of the Hayden Gulch Loadout, consistent with the transfer of former rail spur areas to the Town of Hayden (Hayden) for recreational use. The former rail spur area has been converted to a recreational trail for the use of residents and visitors to Hayden under a locally managed "Tracks-to-Trails" program. The Division proposed approval of Permit Revision No. 2 (PR-2) on 11/23/21 and the revision is currently scheduled to be Issued by the Division on 12/27/21.

The site was dry at the time of inspection, loadout pond shown below, no issues were noted as a result of this inspection.

Above is shown the area north of Hwy 40. This area is not included in the PR2 or SL2 changes.
